

COMPARISON OF PHOTOS 16 AND 17

- TRAJECTORY OF THE UO

SOLID LINE DRAWINGS OF UO - ASSUME IT MAINTAINS A 23° TILT (0=23°)
 DASH LINE DRAWINGS OF UO - ASSUME NO TILT (0=0°)

CONCLUSION: DATA DO NOT PROVE OBJECT WAS DESCENDING,
 (WHICH WOULD CONTRADICT THE WITNESS' STORY).

* DATA ARE CONSISTENT WITH AN ASCENDING (OR LEVEL) TRAJECTORY

FURTHERMORE, THE DATA PROVE THAT THE UO COULD TILT AS
 MUCH AS 23° IN PHOTO 17
