### [Explanation of Ratings](#)

**Credibility = Very Low:** In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are very low), not the veracity of his claims (which could be true in spite of the weak argument).

**Silliness = Very High:** High silliness isn't necessarily a bad thing. Such items often make amusing gifts or may be interesting as cultural artifacts.

**Bargain = Very Low:** In general, items with a low bargain rating are not considered worth the retail price as judged by the useful research data they contain. However, they may have cultural or entertainment value, which is not included in the bargain rating.

An account of Bigfoot's contacts with a family in southern Wisconsin, as told from a Bigfoot female's perspective. Book contends Bigfoot is a "shape-shifter." Evidence consists of tracks in the snow around the family farm, which are documented with drawings and diagrams. Bigfoot also communicates with the family through dreams.... American Gothic?

## Reservations

Since there seem to be no limits to this Sasquatch's capabilities and the exact location of the farm isn't given, further investigation of this case seems impossible.
