Information from the Publisher

Always supportive

From the Book Cover

We Were Never Alone...

The 50th anniversary celebration of the well-documented UFO crash sets the stage for this entertaining documentary about America's reaction to our planet's encounter with ETs. Going beyond "Did it really happen?" approaches, this program counters 50 years of Air Force denials, focussing on the more compelling aspects -- scientific evidence, personal testimonies, expert analysis and cosmic implications.

Featuring Whitley Strieber, Col. Philip Corso, Erich von Daniken, Linda Moulton Howe, Robert Dean, Stanton Friedman, Budd Hopkins, Michael Lindemann, Don Schmitt, David Adair, and Tricia McCannon.

- Witness authentic footage of UFOs including the mysterious Phoenix Lights
- See what the Roswell craft and its pilots really looked like
- Shocking revelations from ex-military personnel! "We thought these aliens were clones built by a superior race..."
- Hear one man's story of being taken to Area 51 to observe a "living" alien engine
- For the first time see actual debris material tested and found to be extraterrestrial in origin!

[Cover includes supportive quotes from Richard Boylan and Brad & Sherry Steiger.]
