Our Review

Opinion of the webmaster, subject to debate

One of several updates by Randle to his original [UFO Crash at Roswell](#). In this one, he responds to the Project Mogul theory and provides transcribed interviews and correspondence with several witnesses.

From the Book Cover

The Latest Evidence:

- Death threats against witnesses
- Removal of Alien Bodies
- One E.T. kept alive at secret location
- Scientific findings hidden away

The story of a UFO that crashed near Roswell, New Mexico in July, 1947, has become world famous. Eyewitnesses testify to the fact that the military recovered the wreckage of a spacecraft as well as the bodies of several aliens (one of whom may have remained alive for a period of time). Recently, the Air Force released a 23-page document stating that what crashed at Roswell was a balloon used in the Top Secret Project Mogul. But evidence gathered by the author says

that the Mogul explanation does not hold water, as more and more witnesses step forward to tell the REAL story. In the end, Randle is convinced the entire world will know what happened that day -- the object that crashed at Roswell was not made on Earth!
