Regarding "Left at East Gate: A First Hand Account of the Bentwaters/Woodbridge UFO Incident" - Latest First

What now??

Larry Warren requested that more people come forward to verify the events on those nights. Come out of the closet and assist the ufo community in rationalising these events

A complete Mockery of common sense and Intellect

Mr. Warren is with no doubt grasping at straws here. His book is a mockery of our intelligence and a basic challenge and what one could assume to be the "S.A.T" of our own common sense. How can a man say he was born in 1961, and yet as a mere child can remember seeing John Fitzgerald Kennedy on national television at the age of 1 or 2, and recanting as a child his all too educated assertion that the President was a charismatic personality?

Who Cares!!

I don't know what Bill remembers, allot of things that are traumatic in our past our own minds allow us to forget or filter into an "Unknown".....lest we not forget that Mr. Warren has credibility and if you have any "Real" information to share with us , not just to disperage Mr. Warrens character, please share it with us...perhaps in a five star Hardback such as the one Mr. Warren and Mr. Robbins have manged to work very hard on.....do you think?...or do you not think? Truth

not like I remembered

None of this is like I remembered.I was there too, it's amazing how things get blown up after twenty years. and everybody tries to profit.I was an S.P. and was at woodbridge that night. Maybe I could add a few detials--Bill C.
