alien bodies from roswell are in storage in Arizona

The three alien bodies are stored at a military base in northern Arizona, in pressure controlled metal containers. The containers are marked containing large missiles.

Do you want to find the truth

I can't tell you how serious this is. To be honest with you I didn't know how serious the Roswell Coverup was until I read a book called "Beyond Roswell" by Michael Hesseman and Philip Mantle. This book was so in depth with reality. In this book you can see actual documents from the team that conducted the coverup (bomb group 309). Several members of the 309 bomb group have resigned with written testimony that "the weather balloon was nothing more than something to divert the press. What I thought was so funny was that the 309 bomb group not only designed the atomic bomb they also dropped it!
