[Explanation of Ratings](#)

(Paperback edition.) It happens occasionally: Stanton Friedman, Nuclear Physicist, stops talking long enough to conduct some research and write a book. We don't know how he found the time, but his latest turns out to be surprisingly coherent. The book is a credible effort to answer his critics on the MJ-12 papers and to analyze a new "Special Operations Manual" that has surfaced under similar mysterious circumstances. Not that we believe the new manual is real, but like the original papers, it is an interesting fake, and we wonder who did it and why. (The tip-off for us: it refers to "Area 51" before that designation could have possibly existed.) Friedman seems almost alone among prominent UFO researchers in supporting the validity of the MJ-12 "briefing papers" for President Eisenhower. Friedman holds his own in responding to the opposition, however, and the book is useful even if he turns out to be wrong. As a research tool, it is packed with historical facts, references and documents, including the MJ-12 documents and a cleaned up facsimile of the alleged operations manual. For the study of government UFO cover-ups - or folklore thereof - this is required reading. -- *Glenn Campbell*

From the Book Cover

TOP SECRET/MAJIC is the result of nuclear physicist Stanton T. Friedman's eleven year search for the truth about the mysterious Operation Majestic 12, classified TOP SECRET/MAJIC. Some of the most startling of these documents are published here for the first time. They tell the incredible tale of the July 1947 recovery of a crashed flying saucer near Roswell, New Mexico and the establishment by President Truman of a truly all-star cast (Majestic-12) to deal with the saucer and its non-human inhabitants. The first four directors of Central Intelligence, the first Secretary of Defense, and several outstanding scientists and military were part of the team.

Nobody is better qualified to explode the mystery of Majestic-12 than Stanton Friedman. He began the serious investigation of the Roswell incident in 1978. He was the first to locate and interview many of the key witnesses. He dug deeply into the backgrounds of the Majestic-12 members, sifting through fifteen document archives to establish the cross relationships between them. Friedman has worked for General Electric, Westinghouse and General Motors, and brings his unique qualifications to bear on an investigation most often conducted by amateurs. Stanton Friedman is NOT a UFO buff. He IS the most outspoken, best known and most trusted scientific ufologist in North America.

TOP SECRET/MAJIC is a no-holds-barred scientific detective story that rips the lid off the Cosmic Watergate -- the U.S. government's forty-nine year cover-up of the real flying saucer story.

Captivating, Logical.....

Stanton Friedman captivates the reader by exhibiting a mountain of research concerning MJ-12 members and he ties it together effectively. This book logically explains how and why each of the thirteen members fits into the group. IF the documents are fake, it was very, very, well done !

-- Gerald Baker (msslman@cei.net) 8/7/97 (#3)

Response MAJIC Commentaries & Book

It is in my opinion as an exhaustive researcher that the documents revealing the existence of MJ-12 are fraudulent....however, I have found that the best place to hide something from the public is usually by placing that item under their very noses. I'll leave the interpretation of that last comment up to you.

-- Thomas Grindberg 7/29/97 (#2)

[Majestic is real!](#)

This page says that Majestic 12 is fake. This is not true. I've read the above book and there is much evidence supporting that Majestic 12 is real! The government conspiracies and the aliens are not folklore!!!!
