Features: Table of Contents, Index, Photo Insert

(You can remove items or change quantities later.)

OR call us: 702-227-1818 (8am-9pm daily PT)

Our Review

Opinion of the webmaster, subject to debate

This is probably the first book to read on the alleged UFO crash near Roswell, New Mexico, in 1947. There is no doubt that something happened, and this book lays out the alien spacecraft scenario. It has done more than any other to win respect for that theory. (See the Air Force's "Roswell Report: Case Closed" for an alternative "official" explanation.) Though not without its flaws, this is still the most authoritative book on the incident, with numerous witness testimonies and plenty of references. It is the starting point for anyone studying the incident. -- *Glenn Campbell*
