Publisher's Synopsis

Zecharia Sitchin has demonstrated that the transcultural gods, the Annunaki/Nefilim, of the ancient civilizations from the tenth planet, Nibiru, in our solar system colonized Earth, created the human species by genetically crossing their genes with Homo Erectus. Corroboration comes from evidence for Planet X/Nibiru from the Naval Observatory, the mitochondrial DNA "search for Eve", "out of Africa" data placing our genesis in Central Africa 250,000 years. We have progressed from being their slave animals to limited partnership and are now phasing out of a 3000 year traumatic transition to racial independence, a rapid metamorphic process, under the imperative of our advanced Nefilim genetic component. We now have the keys to integrate our past in the concept of generic humanity, the critical factor for planetary unity.

What are the astounding ramifications? We are the product of that Nefilim technology, a mutant species with bicameral genetics, bicameral mind,. The word from station DNA is these "gods" wear designer genes. Institutional "religion" is a sublimation of the ancient godspell, the subservient master-slave relationship; transcendental experience participation at the leading edge of that metamorphic self-exploration/expansion. The "occult" is time-release packages of advanced technological information entrusted to us in "crash courses" in civilization until we could break its code. Ooparts, high-tech tools, toys, artifacts, "out of place" in time are remnants of lost technology and knowledge. The new synthesis subsumes partial glimpses of a new politic, new world order, enlightened eco-economics, re-hashed Eastern or Western mysticism, a third culture, spiritualized psychology, or cerebral turning points. The totems and taboos of our racial adolescence dispelled, Prometheus can get off his rock and reach genetic satori; Job can get off his dung heap and complete his EST training; Buddha can open his eyes and reach genetic enlightenment.

What to do after genetic enlightenment has broken the godspell, the looking-to-the-sky-for-daddy to return, master-slave attitude the deepest dye in the fabrics of all cultures? Physical immortality, possessed by the Nefilim, withheld from humans, will be transformed from "religious" afterlife reward to the dominant characteristic of the dawning phase of our racial maturation. We will be our own "gods", our own genetic credentials, play our own god-games with an unassailable racial identity enabling us to step confidently into stellar society.
