Adventures Unlimited "Lost Cities" Series

Adventures Unlimited Press produces a number of books on ancient mysteries and lost cities around the world, with emphasis on unconventional explanations of ancient mysteries. Some are original works by David Hatcher Childress and others, and some are reprints of earlier works. Childress is the author or editor of most of these books.

Childress styles himself as a "rogue adventurer and maverick archaeologist." The tone is generally speculative, suggesting that mainstream archeology is suppressing critical facts.

B+W illustrations throughout. Childress travels to the South Pacific to report on mysteries there, with special focus on the ancient ruins of Nan Madol on Pohnpei Island. (New.)</p> <p>"Intrepid adventurer and author David Hatcher Childress continues his world-wide search for lost cities and ancient mysteries by voyaging to Micronesia where he investigates a sunken city. Discover with David the incredible city of Nan Madol, built into the ocean over an 11-square-mile area of man-made islands and containing 250 million tons of basalt columns. Local legends insist that the giant blocks of magnetic, crystalline basalt were "magnetically levitated" into place by the islanders' mysterious ancestors. With an extensive collection of old drawings, photos and maps, this book brings alive the great empires of the ancient Pacific. Includes a 16-page color photo insert. 1 lb</p>	<p>\$16.95</p> <p>Add to cart</p> <p>OR</p> <p>Buy Now</p>
<p>eastermyst</p>	<p>The Mystery of Easter Island (new trade paperback)</p> <p>By Katherine Routledge. 1919 (1998), Adventures Unlimited, 404pp. Reprint of a vintage book describing Easter Island and a journey to it by sea in 1915. Half of the book is about Easter Island and the rest is about various islands and exotic ports visited enroute. (New)</p> <p>Written as a journal, this book may capture for the reader some of the early flavor of discovery, before Easter Island and every other interesting place in the world became overrun with tourists. The writing is still clear and relevant in spite of its age, and the famous Easter Island monoliths have not changed since then.</p> <p>"Katherine Routledge's classic archaeology book on Easter Island was first published in London in 1919. Heavily illustrated with a wealth of old photos, this book is a treasury of information on that most mysterious of islands....
