[Explanation of Ratings](#)

Credibility = Very High: In general, this category is a rating of the author's intellectual discipline and the strength of his argument (which are very high), not the veracity of his claims (which could be false in spite of the strong argument).

This hefty, large-format road atlas is a couple of years old, but little has changed on America's roads. For a heavily discount price, you get an atlas that is bigger and better than the standard Mobil atlases found at truck stops. Includes maps of all 50 states, Canadian provinces and Mexico. Features: State-by-state index of cities and towns; National Parks guide; climate maps of North America; Mileage charts between major interstate and intrastate cities; area code map; detail maps for major cities; interstate highway map. Strudy book-style binding instead of stapled. -- *Glenn Campbell*
