Publisher's Synopsis

In his bestselling *Intruders*, Hopkins chronicles alien encounters. Though *Intruders* greatly expanded readers' knowledge of the UFO abduction phenomenon, Hopkins subsequently learned of an extraordinary witnessed abduction--an abduction sighted by independent third party witnesses. This book reveals this unprecedented and amazingly complex case for the first time in its entirety.

From the Book Cover

A CASE TOO COMPELLING TO IGNORE -- FROM AMERICA'S UFO EXPERT

Budd Hopkins' extraordinary New York Times bestseller, *Intruders*, was hailed as "a convincing case... that the invasion from outer space is not fiction but fact" (Houston Chronicle). Now, this renowned UFO authority discloses breakthrough evidence of a shattering, unprecedented phenomenon -- a witnessed abduction.

New York City, November 30, 1989, 3 a.m.: [Linda Cortile](#), a married mother of two, emerges from an apartment window high above Manhattan's FDR Drive. Suspended in a blue beam of light, and accompanied by three alien figures, she is lifted into a large reddish-orange glowing UFO, which then moves off toward the Brooklyn Bridge.

As recalled under hypnosis, the pattern of Linda Cortile's abduction seemed no different from hundreds of prior cases Budd Hopkins had studied. But his investigation took a dramatic turn when several witnesses -- including a major political leader and two police officers -- contacted him with vivid descriptions, all independently corroborated, of the shocking events near the Brooklyn Bridge that night. Through their letters, audiotapes, and sketches, Budd Hopkins uncovered keys to remarkable details of the encounter -- including an inexplicable metallic object implanted in Linda's body. WITNESSED is the most powerful and authoritative case yet supporting the truth about alien abductions.

Regarding "Witnessed: The True Story of the Brooklyn Bridge Abductions" - Latest First

The book "Witnessed" - more fiction than fact

I just finished reading "Witnessed" by Budd Hopkins, about the Linda Cortile UFO abduction in New York City. Mr.Hopkins seems to make an awful lot of assumptions based on the information presented to him. I am struck by the fact that he is a sculptor by trade, not a scientist, and his books seem like nothing more than a money making venture to me. Does anybody else feel, as I do, that this book is basically a lot of crap?
