Our Review

Opinion of the webmaster, subject to debate

A chance to apply the diagnostic criteria you learned in [DSM-IV](#). This book provides a series of cases -- short descriptions of patients and their symptoms. You have to decide what their diagnosis should be... borderline, bipolar, etc. Makes an amusing parlor game for those who are so inclined.

This catalog provides the sole financial support for the [Ufomind website](#) and our many free on-line services.... Your purchases keep us going!
