"Another here-come-the-aliens book that one might be willing to dismiss as mindless entertainment if it weren't so determined to pretend it's serious. Craft (Omega Institute of Holistic Studies) has cast his nets wide and pulled them back full--and he has thrown nothing away. Abductees, medieval elves, crop circles, ghosts, ley lines, Bigfoot sightings, secret government warehouses full of alien bodies: All serve equally as material for his wide-eyed speculation that something out there is trying to get in touch with us." -- Kirkus Reviews
