Comparison to Other Books

There are many tapes available of Friedman's lectures, which don't seem to vary much. At least this one is reasonably cheap.

From the Book Cover

Eyewitness testimony from US Army personnel who actually recovered and transported crashed saucers and alien bodies

Videotaped at Spaceport USA, Cape Canaveral, Florida.

Nuclear physicist Stanton T. Friedman tells the complete story of the government's secret recovery of two crashed saucers with alien bodies near Roswell, New Mexico in 1947. Using nine eyewitness accounts of those who actually recovered and transported the crashed saucers and others who had direct contact with the autopsy of the alien bodies, this program provides proof of the reality of "Roswell."

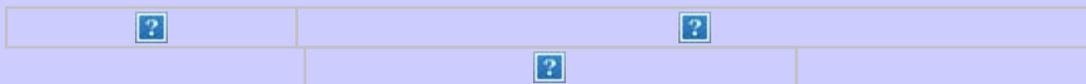

The program documents UFO landings, with photos and videotaped evidence of UFOs from around the world and reveals the startling story of the government's "Cosmic Watergate," a massive effort to keep UFO information from the public and from Friedman's persistent "Freedom of Information" requests.

[Back cover includes a standard 1 paragraph biography of Friedman.]
