Our Review

Opinion of the webmaster, subject to debate

This is a German-made video marked by poor production values, sloppy editing, laughable English-language dubbing and a complete lack of skepticism. It is also our Number One recommended video on Area 51! Filmmaker and tabloid publisher Micheal Hesemann may have an ego the size of Manhattan, but at least in this video he lets people talk. This tape contains over two hours of interviews with Bob Lazar, George Knapp, John Lear, Norio Hayakawa and virtually every other Area 51 UFO character from the plausible to the ridiculous. (The only player missing is Our Director, whose interview was deliberately cut by Hesemann in personal dispute.) Lazar describes his S-4 experiences in a performance almost as complete as on "The Lazar Tape." He is followed by Knapp, Jim Goodall, Wendell Stevens, Bill Uhouse and an alleged S-4 security guard, all telling interesting tales. In most videos & TV shows, all you get are sound bites; here you can watch people ramble at length, giving you more opportunity to judge their personalities. Watch Sean Morton's ego just ooze off the screen and experience Gary Schultz's rambling paranoia. Since judging personalities is the key to any truth at Area 51, this video is an important research tool and is probably the only one worth getting. Its two hours are never boring and are just long enough. --
Glenn Campbell

Information from the Publisher

Always supportive

From the Book Cover

"When I entered the hangar I witnessed recovered alien spacecraft the Department of Naval Intelligence of the United States was backengineering."

- **Robert Lazar, Nuclear Physicist**

Area 51 in the U.S. state of Nevada - also referred so as "Dreamland" is the most secret military test site in the world. Insiders claim that even recovered spacecraft from an extraterrestrial civilization are back-engineered and test flown here. Indeed, over the years hundreds of witnesses have observed strange maneuvers of disc-shaped craft over the "Black World" of Groom Lake. In a three-years investigation, a German film crew dove deeply into the secrets of "Dreamland", interviewing top scientists and security personnel who worked inside Area 51 and claim to have seen the recovered discs and even alien life forms - "guests" of the U.S. Government| And finally they captured on film the remarkable maneuvers of these mysterious UFOs....

(running time: 135 minutes)

[UFOmind note: Lazar has never claimed to be a nuclear physicist.]
