A series of lectures from a UFO conference in 1993, Although the price is high for an unedited lecture, it might save you the expense of attending a live lecture. (Most speakers tend to repeat the same speech at every conference.)

"These tapes were recorded live at Omega Communications UFO conference and are the complete and uninterrupted testimony of world-renowned experts.... The speakers are the best in the field, and many of their talks are illustrated with slides and video clips. All have been guests on well-known radio and TV shows and all have lectured internationally. They are all published authors, and many have written best-sellers."
