## Our Review

Opinion of the webmaster, subject to debate

This is the one map to have if you're on a New Age, crystalline odyssey to the wonderful town of Sedona, Arizona. At the same time, it will provide many alternatives to incense or T-shirt shops for those not fully into the convergence of the week. The map will give you the tool you need to fully explore what is one of the most spectacular locales in the entire southwest. Printed in full color on quality stock, this information-dense publication will tell you far more than you ever needed to know about the Sedona area. -- *tm*

## Information from the Publisher

Always supportive

The map covers an area of roughly 12 miles by 18 miles, generally centered on Sedona. It hits **all** the attractions in the area:

- Hiking trailheads and trail listings with difficulty ratings
- Mountain Biking areas
- Campgrounds and facility listings
- Scenic vistas
- Food, lodging & gas
- Art galleries
- Horseback riding areas
- All roads down to 4wd level
- General tourist type points of interest
- National forest and wilderness boundaries
- A good pictorial representation of the topography

But what about the energy vortices?? The true test of a Sedona map is whether it shows where all the energy vortices are. After all, that's the **main reason**, we would go there in the first place. This map does not disappoint, clearly showing the assorted vortex locations around town.

The map also extends far enough to the north to encompass both Secret Canyon and Boynton Canyon, both the focus of stories regarding UFO activity and underground bases. Boynton Canyon is shown to have one of the area's energy vortices...coincidence? **We think not!**

The map unfolds to 24" x 38" with information on both sides. One side has the map itself, and the other has text, tables and numerous listings. This is an excellent reference for anyone planning a trip to the area.

For a sample of the map, you may peruse this portion, a detailed view of [beautiful, downtown Sedona](#) (61k).

The *Experience Sedona* map: Don't leave your body without it!
