Regarding "Boron" - Latest First

[Boron-9](#)

1. In my book in 1995 i described the technological process of cold synthesis of boron-9 in the "platon`s bodies". It is known that izotope boron-9 decays in 10 in -16 degrees sec. on two alpha-particles and one proton, which with external electrones give gelium-hydrogenium mixture - "artificial sun". It is technologies of Egyptyan sages.
