Oh no, not that BS again.....
Has anyone bothered to read Bamford's book, which described what people now insist is "Echelon" back in 1983? I could probably pay my hosting bills for a few years by posting Amazon links for that book to UFO mailing lists!

>Here is some more information regarding Security Classifications higher than Top Secret. I found in "Alien Agenda" by Jim Marrs, this quote by Barry Goldwater: "The subject of UFOs is one that has interested me for some long time. About 10 or 12 years ago I made an effort to find out what was in the building at Wright-Patterson AFB where the information is stored that has been collected by the Air Force, and I was understandably denied this request. It is still classified above Top Secret." Taken from a letter he wrote in March 28, 1975.
