* QUOTE *

"Not believing in the power within ancient, sacred, power zones does not diminish the effect the area will have on you--any less than not believing in electricity and putting your finger in a light socket would diminish that effect. The phenomena experienced at power zones varies considerably with both time and place--yet there are several zones where my light socket analogy is quite close to the truth--and, thus, can provide excellent learning experiences for skeptics of metaphysical matters..."

* UFO QUOTES *

"If I get an article published in a refereed sociology journal, my sociology colleagues will assume, without reading it, that it is a useful contribution, as will the Provost of Gettysburg College and the members of the Faculty Personnel Committee. If I get an article published in a ufology journal, many people will suspect, without reading it, that it is nonsense.

"Moreover, people who believe that UFO reports must be either misidentifications, hoaxes or hallucinations will probably reject ufology articles from the outset. Without an authoritative community of scholars to validate such claims, many people will have to have their own UFO experiences to be convinced that UFOs are real.' On the other hand, even if an article in a sociology journal were a total fabrication, based on a survey that was never taken, it would probably be accepted as legitimate.

"Indeed, there have been many famous scholarly publications that turned out to be frauds, as in the case of Dr. Cyril Burt's twin studies that were never actually conducted, but were the basis of 'knowledge' about I.Q. for many years. Burt even published other fraudulent articles under a pseudonym that apparently supported his findings, and he was knighted for his work." --Chapter 2 (Labeling Ufology a "Deviant" Science) from Prof. Charles F. Emmons' forthcoming book (from Wild Flower Press), "At the Threshold: UFOs, Science and The New Age"

"Since January 22, 1997, a major UFO flap has been going on in the three New England states of New Hampshire (N.H.), Vermont (Vt.) and Maine (Me.), with 17 sightings and one encounter reported. <snip>

"According to Peter Geremia, director of MUFON New Hampshire, a Colebrook woman, age 73, claims she was visited by 12 aliens who sat at her table, took notes and whispered among themselves, and wouldn't leave until 3:30 a.m., despite her polite requests.'

"I just want to forget about it. It was very disturbing," said the 73-year-old woman, who told her story to co-workers at a local nursing home and to a MUFON investigator."

"Co-worker Tracy Perry said the woman is stable and not one to make up stories. But since the day last month (February) when she told her tale, Perry said, 'She hasn't been herself.'" <snip>
