TOTAL-5.UFO

Editor's Note: I was \*disturbed\* by what I saw on "Strange Universe" last night. Or, rather, by what was referred to: by Bob Dean and Whitley Strieber (who were allowed to see a longer version than was broadcast on tv). At present, I'm not convinced that the video is a hoax...

Art Bell's website <<http://www.artbell.com/aliens.html>> gives a little background: "This photo is a video grab from a 6-minute piece of footage smuggled out of Area 51 by a mysterious man known only as 'Victor.' Victor claims that he had occasion to be there' and took this while the entire contents of a massive series of interviews [Editor's Note: "Strange Universe" came to call it an "interrogation"] with a number of alien creatures was being downloaded from video to analog.

"This video purports to be of an alien creature, being filmed through a one-way mirror, and being questioned by a U.S. general and a telepathic aide. The ET has a seizure at the end of the scene and is attended to by two doctors." <...picture is the property of Rocket Home Video...[which intends to market their piece on home video]>

However, CNI News (Global News on Contact with Non-human Intelligence)'s website <[http://www.cninews.com/CNI\\_New.html#Latest](http://www.cninews.com/CNI_New.html#Latest)> has this information: "...Segment producers have shown the footage to several experiencers' in advance to get their reactions, including author Whitley Strieber and special effects artist Steve Neill. Neill has told CNI News that he thinks the alien is a puppet. I could make that film in my garage in a weekend,' he said. Strieber told CNI News that he was impressed with some details in the footage but considers it probably fraudulent."

Like the "Alien Autopsy," we'll probably see \*lots\* of discussion about this video--which, ultimately, has a "seeding" (paradigm widening) effect on mass consciousness/popular culture...

\* UFO QUOTES \*

"Aliens also appear to be fairly choosy about their victims. Guest speaker Thomas Bullard reported that of 309 alien abduction cases he has studied, around two thirds of the victims had been male and subjects aged between 7 and 20 are the category most at risk. Abductions are a peril of youth,' he claims. If you manage to pass 30 without ever being abducted you have little to worry about.'" --"Blame it On the Aliens" by Robert Ashton (from the Feb. 97 issue of "Focus" magazine/Issue #71 of "United Kingdom UFO Network"

"In the wake of the 39 suicides connected with Heaven's Gate, some dismiss the whole UFO phenomenon as the product of the imaginations of the insane, the disturbed, and the mentally ill..."

" We need to use the tools of scientific inquiry,' [Jerome] Clark [editor of the Center's newsletter, \*International UFO Reporter\*] said.

Unfortunately, these are rarely brought to UFO inquiry.' "But the subject has also attracted a mentally-disturbed following that is often seen as the norm, [Mark] Rodeghier [CUFOS Scientific Director] said."

"... I don't think that we're being unrealistically demanding,' said Donna Jurdy, an NU Geology professor who gives firesides on extraterrestrial life. It's just that we question things. A substantial number of our population thinks they've been abducted by aliens. They don't seem to offer us much proof.'

"Ufologists say it is difficult to obtain proof without being able to obtain the necessary money to properly investigate UFOs. Clark calls this a self-fulfilling prophecy.'

" You don't look for evidence, declare the evidence isn't there, and use it as an excuse not to look for evidence,' Clark said."
