ALIEN CONTRADICTION IS FOCUS OF NEW BOOK

The mysterious Area 51 -- is it an alien hotbed or amusing hooley? -- is the subject of author David Darlington's 'The Dreamland Chronicles'

By Anne Hosier
LAS VEGAS SUN

The stretch of desert known as Area 51 remains so shrouded in secrecy the government is still reluctant to admit it exists.

U.S. taxpayers, who foot the massive bill for the base, are forbidden to know what goes on there. Curious onlookers caught wandering within its boundaries can be killed and left for buzzard bait. U.S. Air Force pilots who accidentally penetrate the base's airspace find themselves detained and interrogated -- and sometimes out of a job.

But under the Open Skies Treaty of 1992, pilots from 24 countries are free to fly over Area 51 and have a look.

It's a strange paradox -- one of many surrounding the base that author David Darlington ("The Mojave," "In Condor Country," and "Angels' Visits") explores in his newly released book, "Area 51: The Dreamland Chronicles" (Henry Holt, \$25).
