

Ramblings of a Conspiracy Investigator

The following is correspondence received by the Ufomind webmaster as email and comments to our web pages. All are from the same individual, who has also called me many times. I have removed his name to avoid provoking him. It is hard to understand what his claims are, but he believes there is a US government alien cover-up and that he is going to initiate a Congressional investigation with the help of Senator Ted Stevens. Just a small portion of the correspondence is reproduced here, but it all runs along the same vein.

2/3, 5pm: XXXXXX XXXXXXX of Anchorage, Alaska, has added this comment to the bottom of our Area 51 page:

Glen Campbell hung up on me when i called him in 10s AS I IDENTIFIED MYSELF BUT BEFORE HE DID HE SAID STOP vegas sunday morning after he said stop spreading SPREADING DISINFORMATION ABOUT AREA 51 AND THE ALIEN vegas i think he has some kind of mental problem like i think bob lazar has been programed by aliens DOWN LOADED YOURE ENTIRE Data base system onto a c disk

We're worried about Our Director, who does not deny that he hung up on XXXXXX. What kind of mental illness would prompt him to do such a thing?

And what does XXXXXX mean by "called him in the 10s"? Apparently, that's a ten-call set. In a lengthy series of messages on our answering machine XXXXXX has promised to come to Las Vegas, find Campbell and set him straight on the alien brainwashing question -- certainly a cause for concern. He'll never find our wily Director, though, since Campbell has gone into hiding and has surrounded himself with HUNDREDS OF GUNS in a bunker somewhere in the desert. The only person at Campbell's Las Vegas residence is the anonymous webmaster, who doesn't know anything and will try his best to direct XXXXXX to Campbell's whereabouts.
