Subject: Re: Stories of Astronauts and UFOs

Well, it's worth a try. I take the vow of civility on this thread, and I even promise to rein in my irony and emoticon sneers....

Some of the following stuff may be of wider interest but it isn't in ASCII form. If anybody has a scanner and the willingness to do four-five pages of text, I'll snailmail them the material and we can later post it. E-mail me directly with offers.

Magazine articles by James Oberg relating to "Astronauts and UFOs"

"Space World" magazine is on microfiche at many large libraries, it's probably the best bet. Also, my book "UFOs and Outer Space Mysteries" (Donning, 1982) had a full chapter on the Apollo-11 legends. The NOVA report on UFOs (1982) showed some research results also.

Analog Science Fiction / Science Fact
1976 Nov Unidentified Fraudulent Objects
1980 Nov Space Folklore

Fate
1980 Sep Myths, Mysteries of the Moon

Ideal's UFO Magazine
1980 May Apollo Sightings, Fact or Fiction?
