Richard Boylan's Theory on Phoenix Triangle Sightings

From: campbell@ufomind.com (Glenn Campbell, Las Vegas)
Date: Thu, 19 Jun 1997 12:02:29 -0800
Subject: Richard Boylan's Theory on Phoenix Triangle Sightings

From: rich.boylan@24stex.com
Organization: 24th Street Exchange
Date: Thu, 19 Jun 97 09:30:02 -0700
Subject: Trojan Triangle?
To: campbell@ufomind.com

Date: June 19, 1997
To: All
From: Richard Boylan, Ph.D.
Subject: "Trojan Triangle" Caveat

While many in the UFO investigation community are understandably excited about the recurrent overflights of Phoenix by a very large array of lights forming a shallow V, and that videotape of that formation has been shown on NBC network (and affiliates) news, I suggest that we proceed cautiously in asserting that THIS particular phenomenon proves that we are being visited by extraterrestrial civilizations.

The V-formation of lights is ALSO entirely consistent with a common array of lights on the large triangular antigravity craft manufactured by one or more of the Lockheed-Martin, McDonnell-Douglas and Northrop underground "black" aerospace factories in the Lancaster/ Palmdale-Helendale-Llano Triangle, in the desert near the north Los Angeles County line. Similar descriptions of a V array of lights have been reported when a U.S.-manufactured large black triangular craft flew extremely slowly (like <15 mph) in the night sky over Lancaster and the northwestern Antelope Valley. The lights were along its leading edge.

The UFO Cover-Up organization is planning its own well-timed disinformation-debunking strategies as we approach the 50th Anniversary of the Roswell UFO/ETs retrieval, complete with UFO-petitions-to-Congress campaign co-leader Kent Jeffries turning/"being turned?" and about to announce publicly that he does not believe a UFO crashed at Roswell, and the Air Force Office of Disinformation (AFOSI) about to issue another deceptive "report" on the Roswell crash as a misunderstood secret experiment involving dummies.

It certainly would not be beyond possibility for the UFO Cover-Up organization to unveil the military's large triangular antigravity craft around Independence Day, while simultaneously ridiculing "overcredulous" UFO investigators for mistaking its Triangle's leading-edge lights for a squadron of stationary UFOs over Phoenix. [Of course, the military won't mention the ET source of their palagarized technology.] Such a coup would set back genuine UFO reporting for a while, and back the media off from accepting (genuine) UFO

reports for a long time.

What has been seen and reported over Phoenix may be genuine UFO(s), or it may be copycat U.S. weapons-industry antigravity craft. The prudent course for the UFO investigation community will be to affirm that the silent, semi-stationary, levitating lighted objects over Phoenix are not consistent with any publicly-known human technology, and merit immediate investigation and public explanation by the government. Let's put the burden of explanation back on the government. Let them either demonstrate that antigravity technology is human or of the extraterrestrials. The real question we should be asking is not so much where those lights came from, but how come the military and FAA are covering up, and shirking their responsibility to identify everything flying in U.S. airspace, or admit that U.S. airspace is being occupied by craft that the government can neither explain nor do anything about.

By such a reasoned and "civic" approach, the UFO investigation community takes the moral high ground, and leaves the government to either do its duty or be exposed as shirking its duty.

As ORTK so well states, the UFO Cover-Up will not be resolved so much by scientific explanation, as by political action - demanding that FAA and military officials provide answers, or admit that there are "unknowns" in our skies, instead of ignoring the data.
