

My Family & the man who is trying to destroy us...

By Amy Van Staveren

My name is Amy Van Staveren, I am 32 years old and live in the golden hills of Northern California with my husband Dave and our two children Amber & Katie. We live a peaceful life with outdoor BBQs & outings with the kids. Though my husband Dave has asked me not post this page I feel that people should know about this evil and horrible animal calling himself Andrew Wiseman.

Amber & Katie

But our normal life has been shattered by a demented and evil man calling himself Andrew Wiseman. See picture below:

The evil Andrew Wiseman

This horrible man makes no apologies for his evil deeds, namely calling our house in the middle of the night and making threats against me and my husband. Or writing mean and nasty letters via e-mail over the Internet under assumed names. He works for a company in Cambridge, England called:

Bensasson & Chalmers Limited, there address is: Dirac House, Cowley Road, Cambridge. CB4 4WS UNITED KINGDOM. There phone number is:

011-44-1223-420-048 phone

011-44-1223-420-418 fax (though this doesn't seem to work)

There home page is at: <http://www.users.dircon.co.uk/~bandc/>

His boss is Mr. John White who never seems to get our telephone messages, how convenient!

And all this started because of Andrew Wiseman's jealousy over a British Television Web Page that my husband and our friend Patrick created that was just a bit better than his.

Our friend Patrick Buskirk & My husband

And this swine of a man has had the nerve and audacity to write a web page of hate and lies called the The Web Snatcher, he even invented so called friends to back him up and then threaten to physically hurt my husband and children. We have contacted the local police and they are investigating this bastard who is trying to destroy our life.

His email address is: bandc@dircon.co.uk

So if you know of this horrible little bastard have him STOP his "HATE" campaign and tell him to grow up leave my husband and family in peace!

Note: The page above is a preserved copy of a web page found at <http://www.geocities.com/Heartland/Hills/7306/AndrewWiseman.html> and copied from there on 3/24/97. The page is complete, and no changes have been made to it. The first four photos, showing two smiling girls about 3-8 years old in family snapshots, were not copied. This page has been preserved as an historical record because it is a subject of contention. For more information see the unofficial link page for [D R Van Staveren](#).
