Presenter Bio's

Edgar D. Mitchell - was the sixth person to walk on the moon, during the historic Apollo 14 mission. He is a scientist with a doctorate from MIT, a test pilot, navel officer, astronaut, explorer, entrepreneur, author and lecturer, and most recently, he has become active in seeking governmental disclosure of information pertaining to extraterrestrial intelligence. Last April, Dr. Mitchell accompanied Dr. Steven Greer and the CSETI (Center for the Study of Extraterrestrial Intelligence) delegation to Washington DC with the purpose of encouraging open congressional hearings into the ETI matter---(during the Prophets Conference, Dr. Steven Greer's CSETI team will exercise protocols to effect ETI Contact).

Dr. Mitchell's extraordinary career personifies humankind's eternal thrust to widen its horizons as well as its inner soul. He founded the Institute of Noetic Sciences in 1973 "to expand knowledge of the nature and potentials of the mind and spirit, and to apply that knowledge to advance health and well-being for humanity and our planet."

Dr. Mitchell's new book "The Way of the Explorer: An Apollo Astronaut's Journey Through the Material and Mystical Worlds", as well as a number of other books, are available through the Institute of Noetic Sciences. Dr. Mitchell was inspired to found the Institute in part by his experience of viewing the earth from orbit.

Zecharia Sitchin - whose work challenges everything we thought we knew about human civilization, is considered by many to be the greatest historian of all time. Sitchin is one of a small number of orientalist who can read the Sumerian clay tablets which trace Earth's and human events to the earliest times. He has a profound knowledge of modern and ancient Hebrew and of other Semitic and European languages, the Old Testament and the history and archaeology of the Near East. His Earth Chronicles series of books (in 13 languages) combine advances in modern science with textual and pictorial evidence from the past to form a cohesive and fact-based story of what had really happened on our planet in the past 450,000 years. His mind-stretching cosmology is a preparation for the return of the Nibiruans, our creators, who, he says, will be returning soon. Although incredible, this body-of-work appears unchallengeable academically.

"For thousands of years priests, poets, and scientists have tried to explain how man was created....Now a recognized scholar has come forth with a theory that is the most astonishing of all." -UPI

Steven M. Greer, M.D. - is widely regarded as the world's foremost authority on the subject of extraterrestrial intelligence (ETI), and is the founder and international director of the Center for the Study of Extraterrestrial Intelligence (CSETI). A lifetime member of Alpha Omega Alpha, the nation's most prestigious medical honor society, Dr. Greer is an emergency physician and former chairman of the department of emergency medicine at Caldwell Memorial Hospital in North Carolina.

Dr. Greer, as director of CSETI, has led research teams throughout the world investigating the existence of ETI, and on several occasions has successfully established preliminary contact and communication with extraterrestrial spacecraft at close range. He has met with and provided briefings for senior members of government, military and intelligence operations in the United States and around the world, including senior CIA officials, Joint Chiefs of Staff, White House staff, senior members of Congress and congressional committees, senior United Nations leadership and diplomats, senior military officials in the United Kingdom and Europe, and cabinet-level staff members of the Japanese government, among others. The scope of Dr. Greer's knowledge and experience permits him to address a virtually

limitless diversity of audiences. He is able to relate the ETI subject to political and national security issues, consciousness studies, space exploration, the environment, religion and spirituality, world peace and disarmament issues, global transformation, new sciences, free energy, and studies regarding our future.

[Lyssa Royal](#) - holds a degree in psychology and is an internationally-acclaimed author, channel, and seminar leader. Since 1985 she has presented seminars, private consultations, and sacred site tours all over the world. She is the author of *Preparing for Contact*, *Visitors from Within*, *The Prism of Lyra* (available in 5 languages worldwide) and the forthcoming title *MILLENNIUM: Tools for the Coming Changes* (due in January '98). Lyssa is the Arizona coordinator for The Center for the Study of Extraterrestrial Intelligence (CSETI) and has conducted field research into CE-5s (human-initiated contact) since 1993. She is also listed in *Who's Who of American Writers, Editors, and Poets*. Though a significant portion of Lyssa's work focuses on exploring the extraterrestrial issue, the practical application of her work is of utmost priority to her. Lyssa lives in Arizona with her husband Ronald Holt and continues to write, travel and teach around the world.

[Shari Adamiak](#) - is CSETI's Executive Assistant and Research Director. She has worked with Dr. Greer since May 1992. Together they constitute the senior research team, as well as carrying out CSETI's vision and strategies regarding contact and disclosure. Shari is a paralegal with many years of trial experience. She has written numerous articles, book chapters and given many talks regarding extraterrestrial contact. From CSETI's Colorado office, she coordinates CSETI's Rapid Mobilization Investigative Team efforts, the training kits, the working groups, trains new members, and puts together the CSETI Working Group Training Kit. She has appeared on national and international television shows, is a frequent lecturer, and interacts worldwide with those interested in the work and initiatives of CSETI. Prior to meeting Dr. Greer, she coordinated a support group for contactees, and brings a lifelong commitment to further communications with extraterrestrial peoples and countering the defamatory mindset that often accompanies speculation about ETI.

[Aluna Joy Yaxk'in](#) - is founder of Hauk'in Center for Solar Initiation, and acts as coordinator for The Annual worldwide Solar Ceremonies for Planetary Awakening held each Equinox. She is the author of *Mayan-Pleiadian Cosmology*, *The Mayan Suns*, *The Mayan Time Decoder*, and *Mayan Solar Destiny Readings*. She has been receiving telepathic information from the Cosmic Maya since a small child, which she blends with indigenous Mayan teachings and synthesizes this multi-dimensional information to create broader perspectives into universal wisdom. Aluna merges the stars with the stones, triggering deep memories that we come from the stars. She is a regular writer for several national and international publications, a contributing writer to the documentary *Father Sun Speaks*, and leads pilgrimages to the Maya and Inca lands.

[Hunbatz Men](#) - is a Mayan daykeeper, artist, Elder, Shaman, ceremonial leader, and profound teacher. He is an authority on the history, chronology and calendars of the Mayan civilization. His teaching include Mayan mathematics, ceremonial centers, art symbolism, ideograph, iconography, astrology, astronomy, and philosophy. Hunbatz Men is founder of the Mayan Indigenous Community, the Center of Mayan Studies and Maya Mysteries School. He is the author of many books, and has been featured in several other books and videos. His training began as a young child from his uncle, who in turn received the teachings from his elders, in the ancient tradition of passing the ancient knowledge of the cosmos.

[Standing Elk of the Yankton Sioux](#) - Dakota Medicine Man and carrier of the ancient Star Nations prophecies, and creator of the "Star Knowledge Conference". The Star people (ETs) are said to have given the various tribes their sacred teachings, health practices and spiritual ceremonies. Standing Elk will share his indigenous people's knowledge about their origins from the stars, the frequent contacts by extraterrestrials, and that the Star Nations are returning before the end of the 1990s. These are the transition times foretold in Native American traditional history. Because of these special times, many Native American and other spiritual leaders have determined that it is time to open to non-Indians all their sacred teachings, even those normally kept quiet. In this spirit, Standing Elk shares his knowledge at The Prophets Conference.

[Robert Ghost Wolf](#) - has been called a holistic healer, teacher, ceremonial leader, prophet and Shaman. He is an internationally recognized author, speaker and artist. "I am very lucky....my life is magical. It is lit with the light of all the people I meet." He is a frequent guest of other teachers and spiritual leaders from many modalities of Spiritual

Expression. He is a Metis, part Iroquois and Lakota. He has worked with the Apache, Lakota, Osage, Hopi and Ojibiwa elders for many years. He has been asked by his teachers and the elders to come forward at this time and help deliver their teachings and the ancient knowledge to the people of the World. "These are the End times and the people must know the truth, share what we have taught you. There can be no more secrets now if we are to survive as a species through these times."

Ghost Wolf carries a unique body of knowledge that sheds a bright light on our forward movement in this time of great change and appearing chaos. A time, perhaps, of the most dramatic changes to ever effect the course of human evolution. A time where as we walk with a foot in each of two worlds we are approaching the reality that we are about to take a giant leap into our foreverness. "We must build bridges between peoples now. There has been enough separation. That separation has only caused confusion, and results in fear based beliefs, which are really no more than superstition. We must reconnect them to their hearts. It is a time to come together. What will occur tomorrow depends upon what we choose today, in this moment, as our path. The Sacred Hoop and the Holy grail - they are one and the same. They represent the Human heart."

Ghost Wolf clearly displays some of the magic that has gained him world wide recognition as the Master Teacher and Visionary in his most recent publication, *Last Cry • Native American Prophecies • Tales of the End Times*. Seldom before have we been given such personal insight into the soul and wisdom of Native America. These are prophecies of the heart. We find ourselves lifted upon a spiraling pathway that leads us to divine self. He mystically bridges the worlds and paradigms of many perceived realities into a clear and definitive vision of the potentialities that lie before us in these times of change. We are offered solutions to the inevitable experience that lies before us as we are shown that inevitably we are the Masters of our own Destiny. These are the teachings of Robert Ghost Wolf.

Robert Morning Sky - linguistic historian of Hopi and Apache Indian Nations, brings to the public a traditional method used to glimpse the future. Grandson of one of the rescuers of the extraterrestrial "Star Elder", he tells a story that the world of the "civilized man" does not want to believe... "but it is true". Morning Sky also tells of the "hidden history" and speaks to the people he calls the "primitives" of the civilized world: those who know that their world has lied to them, and those who know that there is more to truth than what they have been told. Morning Sky's work is controversial, poignant, and very interesting.

"Ladies and Gentlemen, so long as we continue to search for Messiahs and Saviors 'out there', there will always be those who are willing to manage our lives for us...telling us what to do and what to believe in. Until we recognize that we are descended of 'Star Beings', until we recognize that we are 'Star Beings', the secrets of the Universe, the secrets of the Sphinx and the Great Pyramid will always be denied us."

Scott Catamas - producer of *Strange Universe*, a nightly news magazine show that is broadcast nationally and reports on paranormal happenings from all over the world, Scott has won multiple EMMY awards as a writer and producer, as well as several national awards for excellence. He has written and/or produced over 100 original stage and television shows. Most recently, Scott has been active in paranormal programming for television. He worked on NBC's *The Other Side*, HBO's *Reel Sex*, and UPN's *The Paranormal Borderline*. Scott's insights about the UFO and paranormal experiences he has captured on tape is thought provoking and highly informative. He offers a unique and positive vision of the planetary transformation taking place that is filled with grace and good spirit.

Bill Hamilton - has some of the most impressive UFO credentials and experiences possible. He is Executive Director of the fast growing Internet UFO group Skywatch International, and Assistant State Director of MUFON, Arizona. He has authored seven powerful books and has written about his astounding experiences in numerous journals and magazines. Bill has also researched underground facilities and their use in developing advanced technology as well as possibly alien technology. He is interested in all experiments that demonstrate antigravity. Bill has appeared on many national television and radio programs including Art Bell's *Dreamland* and *Sightings* televisions and radio shows.

David Icke - is no stranger to controversy. Formerly best-known as a TV sports commentator and leading spokesman for the British Green party. His widely publicized spiritual transformation, he says, has given him the courage to speak out fearlessly against lies and deceit. David Icke discusses "global Manipulation to de-link humanity from knowledge of their infinite potential, brainwashing, who really runs the world, UFO's", and many additional topics. He offers spiritual

solutions to these issues showing how we can approach this situation in a positive and constructive way. He is author of *And The Truth Shall Set You Free* and *Robots Rebellion*. "When ordinary people learn the real role they have to play within a rich and varied cosmic society, rebellion against those who have kept this extraordinary truth from them will be inevitable."

Oh Shinnah (Fastwolf) - Chiricahua Band of the Western Apache. Her life has been patterned after her relative Chokole, a woman warrior who rode with Geronimo. She is a poet, song writer, singer, activist, ceremonial leader. She holds two degrees in music, one in clinical psychology and a masters in experimental psychology, and a Ph.D. in experimental psychology. She brings to the world a unique blend of many ancient traditions with modern knowledge and science. Oh Shinnah shares her ancient healing methods including astral healing, feathering and the use of the ceremonial rattle, and the importance to the Warrior of doing whatever is necessary to restore balance and harmony for the good of the people. She teaches how to become a warrior for Mother Earth in these difficult times and discusses oneness and transformation in this time of purification.

Peter also collects plants and artifacts for the American Museum of Natural History and the Smithsonian Institute. Several of his articles have been reprinted in college text books. Peter is currently the executive editor of *High Times Magazine*, where he concentrates on writing about the drug war, specifically, civil forfeiture, prison privatization, medical marijuana, and mandatory minimum sentencing for non-violent offenders.

Annie Kirkwood - began to receive messages from Mary, mother of Jesus, in 1987. These were daily messages that were later compiled into the books *Mary's Message to the World*, and *Mary's Message of Hope*. Mary's message is that the people of Earth return to God and learn to live together in peace. Mary's message to the world is eloquent, enlightening, and sometimes disturbing. There are predictions of events that have begun to transform the Earth, and that will increase in power during the next few years. Annie believes that the visions and apparitions now seen across the world are because Mother Mary is concerned with people falling into despair about the coming changes and failing to see the beautiful theme ahead. Her quiet simplicity and genuineness of character have reinforced peoples belief in the authenticity and reliability of these messages. She teaches that some of these events can be mitigated by prayer and spiritual enlightenment. As Annie herself has said, "simply read what Mary has said, and judge for yourself."

Annie has been seen twice on *Strange Universe*, and has delighted audiences on many radio and television programs, including the Art Bell show and on the BBC's *Everyman* program seen in Europe.

Byron Kirkwood - author of *Survival Guide for the New Millennium: How to Survive the Coming Earth Changes*. Byron has been inspired by the information coming from Mary through his wife Annie, on the probable coming earth changes, and he has dedicated his life to understanding these changes and how to survive them. He brings a wealth of information on supplies and materials and alternative energy sources to have on hand for practical use during natural emergencies. He also explores new communities that are forming and ways to expand our spiritual connections to everyone on the globe. He has been featured on NBC's *Ancient PropheciesIV: The Final Visions*, and the BBC's *Everyman*.

Dolores Cannon is a well known author, regressionist and psychic researcher who specializes in the recovery and cataloging of "LOST" knowledge. Working through several different vehicles (subjects), Cannon was able to establish communication with the living Michel De Notredame, better known as the prophet, Nostradamus. His revelations and their impact on our own times are both fascinating and at times frightening.

A prolific writer and sought after speaker, Cannon has recently completed her third volume of *Conversations with*

Nostradamus, and has discussed her particular brand of psychic research in numerous magazine articles, and with radio and television audiences nationwide.

[David John Oates](#) - Founder and Developer of Reverse Speechä Technologies, is a native Australian currently residing in San Diego, California. He has spent the last fourteen years documenting a form of human communication which he has discovered, researched, developed and named Reverse Speechä. Essentially, what Oates discovered was that our spoken language is bi-level. This previously unrecognized form of communication consistently occurs imbedded backwards within our forward speech, outside of our conscious control or knowledge. The forward speech may be

truthful; the Reverse Speechä is always truthful. Whereas the conscious voice usually speaks in carefully chosen words on carefully chosen topics, the unconscious voice reveals all-- the raw truth, blunt and to the point. Furthermore, Reverse Speechä speaks mostly in metaphor, revealing the deep behavioral and personality patterns by which we function.

In his twenties, Oates ran a Halfway House for "street kids" in Australia. When American evangelics travelled there preaching that Satan and other demons spoke to teenagers through music when played backwards, Oates set out to prove them wrong. What he found shocked him. He found that many words and phrases appeared regularly when tapes were played backwards, some placed intentionally, but many more seemed to occur naturally. Intrigued and puzzled, he began to devote entire days to researching what he called the natural "reversals" in music and then in everyday speech. Those early days of research stretched into months and then years. He studied tapes of children, politicians, criminals and everyday conversations. Consistently, he found clear, precise reversals occurring on the average of every five to ten seconds of speech, and he found that these reversals consistently commented upon whatever the topic was in the forward speech. The phenomenon astounded him. Why had no one discovered this before??

Oates released his first book, *Beyond Backward Masking*, in 1987, coauthored with Greg Albrecht. *Reverse Speech: Voices from the Unconscious*, currently in publication, was released in 1996, as a rewrite/update of *Reverse Speech: Hidden Messages in Human Communication* which was first published in 1991. He hopes to release his *Reverse Speech Metaphor Dictionary* and his autobiography, *It's Only a Metaphor*, both in 1997. Oates is a popular television guest [including CNN's "The Larry King Show," "Extra," "Strange Universe" and "Hard Copy"]. He is also a regular guest on radio's "Art Bell Show" which airs to 12 million listeners in the USA and Canada.

The U.S. Department of Labor has recently approved the occupational titles of Reverse Speechä Analyst and Practitioner, and has listed them in the category of Clinical Medical Services. Reverse Speechä Enterprises offers on-site and correspondence certification courses taught by Oates, as well as home hobbyist courses, professional and amateur quality reversing machines, toy reversers, books, audio tape sets, video tape sets and accessories. Oates presently maintains a busy private Reverse Speechä Metaphor Restructuring practice in San Diego, California. Headphones on, tapes playing in reverse, Oates continues to document and research his amazing discovery. Reverse Speechä, occasionally beautiful, often ugly and generally poetic, is about to emerge as the phenomenon of the century, jolting an unwitting humankind into the Age of Awareness.

Joan Phillips Ocean, M.S. - ***Co-founder of Dolphin Connection with Jean-Luc Bozzoli in 1984, this organization explores the advancement of human potentials through visionary films, books, art and interactions with free-swimming dolphins and whales. ***Ms Ocean is the originator of human-dolphin swim programs in the world's oceans and rivers, providing safe passage and deep communication between humans and dolphins using empathy, biophysical vibrations and holographic, acoustic imagery. ***Regarded as a world authority on the subject of Dolphin Telepathic Communication, she has developed the methodologies of her work, entitled Participatory Research. ***Master of Science in Counseling Psychology, Joan Ocean is a psychologist and a scientist who creates environments that support people in transition from one life style and one reality to another. ***Author of two books, translated into four languages: *Dolphin Connection*, *Interdimensional Ways of Living* and *Dolphins Into The Future*. ***Producer of videos documenting her daily interactions with Pods A and B of the Kona Hawaiian Spinner Dolphins: *Dolphin Connection*, *Open To The Sea*. ***Founder of Joan Ocean Seminars, which facilitates human-dolphin-whale communication in the sea. ***By invitation, Ms Ocean is a member of the family dolphin Pods A, B and C in Kona, Hawaii, at her Dolphin Connection Center. ***Ocean has led dolphin-communication workshops through-out the world, including Egypt, England, former Soviet Union, India, Australia, Japan, Spain, Indonesia, Peru, Israel, Canada, Mexico, Singapore, the Bahamas and Polynesia dedicating her life to studying dolphins by respectfully joining them in their natural habitats and becoming their friend. ***Ocean has served as consultant and lecturer for the University of Hawaii, Marine Option program; the International Cetacean Education and Research Center, Australia; Liquid Sound Industries of Germany, and a number of diverse dolphin-awareness organizations in Japan.

Swimming with wild dolphins and whales since 1984, when a California gray whale came close to the island shores of British Columbia, Canada and looked directly into Ocean's eyes, she experienced a communication between herself and the whale that changed her life forever. She understood that cetaceans around the world are trying to communicate with us.

In 1989 while swimming in Hawaiian waters, she was approached by a pod of 200 spinner dolphins who surrounded her and then continued to swim with her for two miles. Ms. Ocean experienced their holographic communication through sounds, a language that bypasses our rational-cognitive paradigm and accesses dormant potentials within us. She understands the process as "a meeting of the minds in all the cellular receptors of our body."

Her most recent communications from the cetaceans include a process using neuro-sonic harmonies for advancing into varying frequencies of refined energies inhabited by other sentient beings. She can access vibrational-frequency-environments that exist beyond Time. Once beyond Time, travel anywhere in the local Universe is possible.

Joan and the dolphins have been visiting the many futures of planet Earth and using the knowledge obtained there to awaken people to the powerful significance of their futures and their present lives. Implementing the teachings of the dolphins, Ocean facilitates Week With Joan Ocean Seminars where people visit future worlds and parallel realities. The evolution of human beings through gentle enlightenment and natural joy has been the center of her work for the past 27 years.

One belt dates from as early as A.D. 1400 prior to the arrival of Columbus. The Seven Fires belt represents the Seven Fires of ancient prophecies. What the belts say will happen is a purification. This time is coming soon, says Grandfather.

Ted Loman - a UFO researcher, television producer and talk radio host was partially blinded in an accident in 1989 while melting silver, and came to Sandpoint, ID to visit his parents, Paul and Ina Loman. While there, his father read to him about cosmic advances in the universe and the role UFOs played in them. By the time Ted returned to his home in Tucson, Arizona, he was convinced as to the authenticity of what he'd heard, and continued in-depth studies and research into the UFO phenomenon.

After talking with numerous people from around the world and assembling copious amounts of information, he felt the public needed and had a right to this information. What better way to do it than through television? And there over five years ago, on July 11, 1991, was the birth of UFOAZ Talks - a weekly one-hour live television program.

Loman has since interviewed top researchers in the world, such as Wendelle C. Stevens, Bob Dean, Budd Hopkins, Stanton Friedman, Tony Dodd (England), Colin Andrews (England), Michael Hesemann (Germany), Jorge martin (Puerto Rico), Roberto Pinotti (Italy), plus many more national and international speakers and authors.
