Subject: Letter from Larry Bryant

Mr. Campbell,

Larry Bryant asked me to send you the attached letter to be posted on his page in ufomind. He'd like to encourage other people to follow his example and write to their local U.S. attorney demanding a grand jury to examine the Corso claims. Please post this file accordingly. If you have any trouble with the file, please let me know.

Thanks,  
Dan Pinchas

Dear Sir:

As a resident of the city of Alexandria, I ask that you proceed immediately with the empaneling of a special federal grand jury to examine and report on the revelations of one U.S. Army Lt. Col. (Ret.) Philip J. Corso, co-author of The Day After Roswell

(Pocket Books, New York: 1997).

Those revelations -- mainly, that certain technological artifacts retrieved by U.S. Army authorities from one or more crash-landed "flying saucers" during the late forties - early fifties were seeded to private-industry R&D projects by Corso and the late Lt. Gen. Arthur G. Trudeau -- contradict the long-standing official U.S. military contention that no such extraterrestrial intervention/exploitation ever existed.

Clearly, either Corso is lying or the pertinent government agency is. That agency (or group of agencies) has no right to lie to the public; but the public has a right to know the truth about the aftermath of Roswell and other cases of retrieved alien spacecraft/occupants. In order to pursue that quest for the truth about "The Ultimate Secret" -- and thus hold accountable any federal official who would perpetuate such deception of the public -- the requested grand jury should exercise its subpoena power to --

- Examine Corso's relevant documentation and sworn testimony;
- Discover what official records still exist as to the Army's harvesting of alien technology; \*
- Produce the original "medical examiner's report" made on the retrieved alien bodies; \*
- Summon other Corso-type whistleblowers to submit their evidence/testimony for the record (at least one of whom, I understand, is waiting in the wings for the right opportunity to come forward); \*\*
- Call for the testimony and other evidence of those former and current officials deemed to have been in the best position of knowing how much veracity lies behind Corso's claims.

The history of tracking what our government knows, and when it knew it, about alien encounters bears many pockmarks of lost opportunities. Let's not add another one by failing to activate this "people's panel" that by its reporting function can expose and defuse what may well be the greatest violation of the public trust ever committed.

Please let me know your proposed date for the grand jury's empanelment.

Larry W. Bryant

FOOTNOTES:

\* Notes from the enclosed letter-to-the-editor that my June 19, 1997, FOIA request for some of these records still is being stonewalled by the Army.

\*\* Also note the need for protecting these prospective whistleblowers from official reprisal -- especially in light of Corso's co-author's assertion that Pocket Books recently yielded to official pressure to withdraw Sen. Strom Thurmond's foreword from future reprints of the book. The grand jury should investigate this pressure tactic (called "political blackmail" by co-author William J. Birnes) and determine what law its perpetrators may have violated.
