USE OF DEADLY FARCE?

Date: Mon, 2 Feb 1998 03:54:25 -0500 (EST)
From: JIM BLACKBURN <jadesdane@aol.com>
Subject: Use of deadly force authorized!
Commenting on: <http://www.ufomind.com/area51/org/basecamp/pix/>

Now why is that the media always shows the signs that have "USE OF DEADLY FORCE AUTHORIZED".

Don't they know that every military facility has those signs posted. Especially near their flightlines. I am currently in the Air Force and a loadmaster on a C-5 and every flightline I have been on, including civilian, have these signs posted on their gates or fences. The civilian signs obviously don't have the military installation part on them, but the deadly force part is there. The media wants to show the signs making you think there are some kind of "secret" operations going on.

DEEP BLUE'S NEW CAREER

Subject: Deep Blue's New Career
From: Frank Moriarty <frankm@voicenet.com>

Since there were several references to IBM's Deep Blue computer in the recent ACC/Shulman/Wang brouhaha, I thought you might be interested to know that Deep Blue now has drawn military duty, according to the February 9, 1998 issue of Information Week.

In a brief article headlined "From Chess Games to War Games," Tom Davey reports that Deep Blue has been upgraded from 32 to 512 processors "to simulate the impact of fires, earthquakes, and other natural disasters" on the nation's nuclear arsenal at Lawrence Livermore National Lab. "Our goal is to get 3 trillion calculations per second in 1999," says a Livermore spokesman.

My understanding is that the area over Archuleta Mesa is a "restricted air space", as in commercial craft and private planes are not allowed. That information came from a friend who is a nurse onboard a medivac chopper.

Any commerical pilots out there who can comment on this point?

You are definitely out of character by attacking the source not the info. as presented in this post. You always seem to walk the fine line between the two rather well but not this time. It must be that super-sophisticated dis-information agent showing through or just a bad day. 8-)

Think back a few years to PC Magazine or PC World magazine and you would remember seeing double page full color ads for ACC computers long before all this shit hit the fan.

I think it might be a good idea to point out that Earlybird-1 has been silent in orbit for almost 3 weeks and is probably dead. They've even

enlisted the help of radio amateurs to try and listen for its beacon, but with no luck so far. We may be waiting a little longer to buy our own spy sat photos.

BOMARC MISSILE SITE, NEW JERSEY

From: Tkjr911@aol.com

Subject: info on bomarc missile site

I am interested in finding information about the Bomarc Missile Site located in New Egypt, NJ. I do know that in 1960 there was an accident involving a fire which occurred while refueling a missile carrying a nuclear warhead. I work in that area and was eager to see if I could find more info about the accident and the missile site while it was in operation. I have heard several stories from residents who live in the area, but there are so many variations, I don't know which is accurate. Any info would be greatly appreciated.

Glenn, I just wanted to drop you a note of appreciation for your coverage of Area 51, Las Vegas, and the strange cultural fabric they weave. What could be more interesting than the intersection of the high desert and it's moon-scaphish landscapes, secret government bases, old a-bomb test sites, 'Vegas (a city that seems to have suffered from a massive radiation leak resulting in growth of grotesquely huge and cartoonish casinos), and the people that inhabit the region: Native Americans, UFO buffs, some of the smartest people in the world (working on the most closely guarded government projects), tourists, and the folks that just like living out in the middle of nowhere.

I read about you in the book by David Darlington, "Area 51: The Dreamland Chronicles". I've always wanted to go to Las Vegas and all the Test Sites and Area 51, and the book got my interest up again.

I would like to say for number one that you all have no proof. If you did you would probly blow it all over the news as well as the internet and as far as Glenn Campbell if he had worked out at area51 he would had more information than he has brought forward. I would also like to know with all of the technology of video and camera why after all the photo's that have been taken why one just one photo show up close what these photo's really are and not just some lights in the sky. If you can get just one good photo of these types of aircraft and not fake it you mite have something.

THE PRESIDENT JACKSON CONNECTION

Subject: Warning
Date: Mon, 9 Feb 1998 17:23:27 -0500

The government knows that ufo's do not exist, because they made them. 70 years ago they started expirimenting with hover technology, then they started testing the earths magnetic field for weaknesses that they could perhaps tamper with. The first prototype of these objects came out during the war world II. We joined forces with the canadian government and formed the hover objects only. Unfortunately only 8 people in the entirety of the usa knew of these objects. 50 years ago, in Roswell, New Mexico, they accidentally crash landed one of these objects, taking out approximately 40 trees and magnitizing everything in thier paths. Now they have bombs that cool this gas down to absolute zero, then allow the molecules to move again, causing an energy surge, pulling everything metal to the ground, and also electricuting and killing all life, leaving the land livable, only killing everything. they have satalites that use x-rays, and can read license plates. Please leave this country, it is very dangerous, President Jackson knew that, but he found out too late, they were the ones to kill him, not any one else, he was just looking out his window when government agents came in, threw the gun in his hands, and framed him!! Run, they consider citizens expendable, I warn you
run!!!!!!!!!!!!!!!!!!!!!!

MCCARRAN AIR FORCE BASE

Subject: Area 51 anyone?
From: [withheld]

Alright, your newer junior has been scouting for some news on our favorite Area 51. Here is some info, I know some wont help at all, but at least I'm trying. Take Highway 351 AKA: "Extraterrestrial Highway." Follow a ten mile dirt road, then you will see signs and other things stating that there should be no trespassing beyond so far. Some where around there is a place called Tikaboo Peak. It's about 7,000 feet above "Dream Land." Some other things about Area 51 are the flights carrying the personnel. McCarran Air Force Base in Las Vegas, will transport all of the workers at Area 51. However, McCarran denies having any connection with any flights to... well, I guess, anywhere. They also wont say whether or not it's government owned. Finally, for anyone who hasn't seen the Discovery Channel's special, U.F.O.'s, I saw an add to get it on video tape. I don't know if it would be worth the price, but any hard core Alien lover should call 1-800-615-4949 and get the UFO's special. But it is about \$40.00! P.S. (before the signature) can I have some more E-Mail address' of people? I want to know everybody who is interested in UFO's, Aliens, and Area 51!!!!!! Talk to you later, GEC

SATAN IS BEHIND IT ALL

Hi there. Writing to you from South Africa. Just thought I could ask you a question. In the circles I've been moving lately, I've been led to believe that all unexplained paranormal phenomena are explained simply by the explanation that Satan is behind it all in order to confuse us all. It is possible.

Thankyou.

SEEKING ROOSEVELT'S INCIDENT OF 1947

Date: Mon, 26 Jan 1998 19:20:39 -0500 (EST)
Subject: Roosevelt's Incident
From: "m.fantini@areacom.it" <a.bergesio@areacom.it>
To: Area 51 Mailing list

I'm inscribed in this mailing list, as a reader because I'm Italian and so I don't know well the place and the "secrets" of the Area 51. Yet I'm very interested in UFO and the problem around them, probably because I study biology in Italy and so I'm interested in possible extraterrestrial life's forms.

Now I'll have the opportunity to being present with a request that hope not very "fat".

I would have any informations and documentations about Roosevelt's Incident of 1947 (I think probably !), specially if there are among you people that can know best of others the truth because they worked for U.S. Army, or were closely connected to it or to important people.

I have seen in Italy the film about the alien's operation, but many people for example say that is false. Many others think that there were some military and political problems behind this incident; an example: someone say that it was created to cover a new American spy jet to the ex Sovietic Union, but others think that the alien was true and that it's present still today in any secret base.

In conclusion, I know the principal ideas and problems around this incident, but I would know, if possible, something of more concrete, of more certain about it, also if think the truth probably will not never revealed !!!

P.S. I'm sorry for my English, I never has been in U.S.A. !!
