1998 Psychic Predictions - For The Record

From: campbell@ufomind.com (Glenn Campbell, Las Vegas)
Date: Wed, 18 Feb 1998 00:02:13 -0800

[See also [contest results](#) (Jan. 1999)]

As mentioned in an earlier posting, here are the 1998 predictions from several professed psychics. This is the document assembled by Peter Petrisko <ptp@primenet.com> and found at:

`ftp://ftp.primenet.com/users/p/ptp/prediction98.contest`

I am sending the entire document to the mailing list to put it "on the record" as of today. (Posted with permission.) As the year goes on, we'll see who is right. Petrisko says he will maintain a scorecard at:

`ftp://ftp.primenet.com/users/p/ptp/prediction98.hits`

I have edited the document below only slightly: moving the source line to the section it refers to.

THE GREAT '98 PREDICTION CONTEST -----

These predictions come from the public appearances and/or websites of the people included. All were compiled and posted to at least two Usenet newsgroups, alt.current-events.earth-changes & alt.fan.art-bell, the first week in January 1998. (Excepting Ed Dames, whose 'technical remote viewed' future events - not "psychic predictions" per se, added 2/10/98.)

At the end of this year, correct predictions will be tallied and compared both to each other and a set of predictions made by extrapolating past and current news headlines and global trends.

A separate file, prediction98.hits, will be updated regularly with a list of "hits" - i.e., correct predictions.

Please save THIS file and propagate to other sites if possible. If and when you see a prediction come to pass, email me with that info and its news source for verification. Thank you. - ptp@primenet.com

1 highest stress & greatest releases along US west coast, quakes along San

Andreas Fault, in California up to Alaska
2 magnetic devices & electronic circuitry/devices, esp. satellites & aircraft, failing en masse. Magnetic devices & satellite systems failing almost on a regular basis. Once a week, at least, disrupted because of this burst of energy (high pulse coming outward from the Earth)

4 a catastrophic volcanic eruption at Montserrat
5 Ocean levels rise, the coastlines will change (see 'Scallion Future Map')
6 complete melt-off of the Antarctic, I could see land & structures (reminds of Celtic architecture/structures)
7 first measurable pole shift, deviates in about 3 stages, 6 to 7 degrees for each stage, in a westerly movement. (in real time, compass needles will change from a North direction more towards West.) "21 to 25 degrees is what I consistently see" (total amt. of shift)
8 highest stress & greatest releases (quakes) along coast of SOUTH America
9 greater & sooner releases (quakes) in Japan ...one of the early places to see this disruption.
10 Tornados in strange places, we're going to see a lot more of that
11 Starting Dec. 97 & into 98, an acceleration of more activity - more vulcanism & more quakes
12 we're going to see more effects of brain cancer
13 in conditions like manic-depression, we'll see drugs no longer work
