Since early April 1983 I have been aware by direct experience that we are not alone.

On an early evening walk in Waikiki, Honolulu Hawaii, I witnessed a brief encounter with a UFO that appeared quite jeweled. Its multi colored lights and freedom from any sound whatsoever is entered into my own life of perceptions.

It appeared right between the twin Banyan Towers on Ohua Avenue, on my left hand side while I walked towards the ocean. Hundreds of people must have had an opportunity to witness this sighting, if anyone looked out their windows. I am hopeful someone will reconfirm my sighting..

I walked ahead after it flew past that tower, and I crossed the street to go around and look for it. It was gone.

It was the most vivid impression I have ever had, and the only time in my life I have witnessed the wonder of this apparently extraterrestrial technology.

Once you have actually witnessed the phenomenon, you simply cannot believe every debunking of it by the conventional media.

If anyone was staying at the Banyan Twin Towers on Ohua Avenue at Kuhio Avenue in April of 1983 please let me know if you also had a sighting.

NOTE FROM MODERATOR

I think Waikiki is in the approach/departure zone for the Honolulu Airport.

I flew out of there once enroute to Australia. It was a night flight & I remember the pilot coming on the PA before take-off to warn us that the plane would be banking dramatically shortly after take-off for noise abatement (maybe to avoid Waikiki). Sitting in a window seat (on the right side, I think), I was impressed with the view. It seemed like I

could have reached out and touched the top of the buildings downtown.

One wonders if the bejeweled UFO described above is consistent with that flight path or a more direct path over Waikiki. The jet I was on probably made a lot of noise, but would it have been as noisy on approach (when it is mostly gliding)?
