While stationed in Cuba (74-75), about 300 sailors/marines, were watching the nightly movie. I was more interested in the stars in the skies. I saw what looked like a star moving slowly across the horizon. As I watched, there were 3 similar objects directly behind the first. By this time we shut down the movie. The first object suddenly stopped, the second came upon the first, and so on. After about ten minutes they all departed in different directions. We all reported what we saw to the Base Commander, not one word was ever said about it again. Any of you 300 recall this sighting, feel free to E-Mail me!!!
