Brad Smith on Paul Bennewitz and Dulce

From: Brad Smith <chair@thule.org>
Date: Mon, 26 Jan 1998 19:47:51 -0800

I spoke to Paul twice in extended conversations in 1988-89. I called Thunder Scientific.

He was spacy but understandable.

He was a pilot. His business took him from Albuquerque to Denver frequently. He told me he had taken some photos out of the plane on several different trips on his way over the Archuleta Mesa.

These pictures showed saucer craft on the ground, black cars nearby, and humans. Most of the pictures were stolen from his house by the AFOSI (Doty and others including Moore), but he still had a couple left. Then Shandera, Moore and Tracy Torme (Mel's son) made a tour of the Mesa, then down to Albuquerque to "visit" with Paul. When they left he was missing the last of his photographic "proof".

My contention is that Paul's problems didn't start because of Manzano but because of these aerial pictures of wingless craft near Dulce.

Christa Tilton was "abducted" and taken to an "underground" "alien base". Turns out after my conversation with Christa in 1992 that she is kind of waking out of her mind controlled fog and realizing that she had been mind controlled from an early age (16) and made to do favors for AF personnel. She was an AF brat. Later, she was used as a first abductee guinea pig for her eggs.

Turns out the facility underneath Archuleta Mesa is a top secret bio-genetic lab. They are doing human cloning there and have made all sorts of heinous monsters. They do have vats of human body parts floating in liquid there (as per Christa) but far from aliens using them for "food", they are cloned limbs in growth medium being readied for experimental implantation.

There is technology on Earth that is always 50 years ahead of what humans are made aware of. They broke the DNA code in 1979. Able to "insert" cow eye DNA into doctored human egg, bingo BIG BROWN ALIEN EYES!!!

Linda Howe is an exaggerator par excellence. Those "cattle mutilations" were all done by black helicopter crews. The cover up goes deep, but it is less consistent now because they are out of money like everybody. check out thule.org
