MILITARY APPLICATIONS OF PSI RESEARCH
=====

by Col. John B. Alexander, Ph.D.

America's chief authority on the Government's
Parapsychology Research programs

Saturday, May 2, 1998 1:00pm - 6:00pm
California Institute for Human Science

Join Dr. Alexander for a comprehensive presentation on declassified Government sponsored Psi research projects. Dr. Alexander, often called the "Father of Non-Lethal Weapons" will give a detailed, 'bottom-line' account of:

- o The Real X-Files -- is America ready for the truth?
- o Military remote viewers -- the story behind America's psychic spies.
- o The facts about remote viewing -- what can and cannot be done.
- o How psychokinetic ability was taught to senior Government officials.
- o Independent replication of Cleve Backster's experiments.
- o Why the National Academy of Science study on psi was fatally flawed.
- o Studies on anomalous aerial phenomena (UFOs).
- o The background of the National Institute for Discovery Science.
- o Psi, society, and the evolution of human-consciousness.

Dr. John Alexander's expertise in the study and application of Psi phenomena has been recognized internationally for the past several decades. He entered the US Army as a private and rose through the ranks retiring as a full colonel. During his career, he held many key positions in special operations, intelligence, and research and development. He also served as Chief of Advanced Human Technology, US Army Intelligence and Security Command and is past president of the International Association for Near-Death Studies. After retiring from the Army, he joined Los Alamos National Laboratory where he was instrumental in developing the concept of Non-Lethal Defense. As a program manager, he conducted non-lethal warfare briefings at the highest levels of government including the White House Staff, National Security Council, Director of Central

Intelligence, and senior Defense Officials.

Dr. Alexander organized and chaired the first three major conferences on non-lethal warfare and served as a US delegate to three NATO studies on the topic. As a member of the Council on Foreign Relations non-lethal warfare study, he was instrumental in influencing the report that is credited with causing the Department of Defense to create a formal Non-Lethal Weapons Policy in July 1996. Currently he is the Director for Scientific Liaison for the National Institute for Discovery Science in Las Vegas, Nevada, serves as a consultant to the Office of the Secretary of Defense and is a research consultant to the California Institute for Human Science. His forthcoming book _Future War: The Non-Lethal Factor_, St. Martin's Press, 1998.

Workshop fee: \$45.00 general admission
