AREA 51 FLY-BY

Date: Mon, 27 Apr 1998 10:44:07 -0400 (EDT)
From: Brian Liddicoat <BDLiddicoa@aol.com>
Subject: Flying near Groom Lake
Commenting on: <http://www.ufomind.com/area51/place/airspace/>

Over the weekend, I flew up to the Groom Lake area in a Cessna. We orbited over Tikaboo Valley, just east of Freedom Ridge for some time. The Nellis controllers were very polite, and didn't harass us or try to shoo us away. As long as we didn't bust R-4808N, they didn't seem to care at all how long we stayed there, looking at the base. Incidentally, from 9000 feet, you have an *excellent* view of the base.

AIRSPACE INTRUSION ON SAME DAY

Date: Sun, 26 Apr 1998 23:30:36 -0700
From: [withheld by request]
To: campbell@ufomind.com
Subject: Area51 airspace intrusion

There may have been a serious airspace violation Sunday afternoon. Aircraft were possibly dispatched out of Nellis and McCarran to intercept a small civilian aircraft buzzing around the complex and the box.....including the facility. A little more serious than the average intrusion. Aircraft was chased west past Tonopah by a KingAir out of McCarran (Janet ramp). Might be interesting if you investigate it a little. Not sure of the outcome. The intruders tail number were not yet known. Please leave this message anonymous.

[I can't figure this one out. It is one of the many dubious messages I receive. I would have thrown it out if it did not coincide with the message above. I can't imagine a KingAir being used to chase anyone. All interceptions I have heard of involve fighter jets. --GC]

AREA 51 PANORAMA

A very wide panorama of Area 51 from Tikaboo Peak (100+k) is now available at...

<http://www.ufomind.com/area51/photos/misc/hauser.jpg>

It was taken by Steve Hauser (insane@aztec.asu.edu).

Given the long distance to the base (25+ miles), the detail is impressive.

BLACK AIRCRAFT IN AIR FORCES MONTHLY

Date: Sun, 19 Apr 1998 07:54:17 -0400 (EDT)
Subject: AFM Special Edition on 'black' aircraft
From: "George G. Haines III" <rea_home@compuserve.com>

Readers on this list may be interested in a recently-published special edition of the UK magazine Air Forces Monthly.

Entitled 'X-Planes', the edition consists of 16 4-6 page glosses on various 'black project' aircraft and their home bases, including that famous unnamed one out there in Nevada. The usual suspects, including the U-2, 'Oxcart', D-21, F-117A, and B-2 make an appearance, but there are also interesting pieces on stealthy rotorcraft, Russian efforts such as the M-55 and Mikoyan M-301, and a large collection of notional concepts for future

American and British warplanes, both manned and unmanned. Plenty of pretty pictures as well.

Despite the misnomer title (apparently meant to suggest the 'X-files'), I found it a pretty good read.

LAZAR'S JET PROPELLED COUCH

Subject: Imagination

With regards to Bob Lazar, imagination can be carried to astonishing heights. If you have the opportunity, try reading "The Fifty-Minute Hour" by Dr. Robert Lindner, published back in the fifty's. In particular, read the excerpt entitled "The Jet Propelled Couch". It may give you some insight as to where Lazar gets ideas from.

UFO CRASH IN KAZAKHSTAN

From: "Nikolay V. Subbotin" <Nikolay.Subbotin@psu.ru>
To: "UFO UpDates - Toronto" <updates@globalserve.net>,
Subject: New Russian UFO crash
Date: Sat, 2 May 1998 22:22:51 +0500

Hi!

Bachurin today has returned from Kazakhstan an Emil.

On rather original confluence of circumstances, which details it (he) me asked to not retell, it (he) has appeared with group of the militarions on a place of recent accident a UFO. A figure from a nature and his (its) brief comments you will find in an applied figure. The special attention is necessary is to paid on symbols by (with) a Kosmolingva onboard UFO, which copy the information a Andre. The coordinates of a place of fall are known, however photographing with close distance is not obviously possible, as well as videoshooting.

With approach (approximation) on 500 meters at the participants of expedition (dispatch) the strange burns on a body were formed, and a Emil has received a haemorrhage in eyes. I have photographed these burns on a colour film, as soon as I shall show and I shall print photos at once I shall send them in a KS. In this connection it would be very desirable to leave on the people engaged in photographing of ground from the space ships, there are bases to believe, that the photographing of this place from the companion will give positive results.

Whether there are at somebody assumptions how it can be made?

Besides, the information very closely is connected to kidnapping (abduction) and "pendat" a Valentich, and also supervision of similar objects above North Pole.

Regards,
Nikolay Subbotin
director RUFORS.

Why do we ask for the trut when they dont wont to tell us about area 51.If we all go to area 51,I dont know maybe 100000 people who tries to go in the base,they will let us in.The military will not kill 1000000 people and then we will see the trut if it's still there.
