Re: <http://www.ufomind.com/misc/1998/oct/d16-001.shtml>

I had troubles early Saturday morning attempting to read the article on Art Bell on the "Economist" website that you alerted us about. The article appeared but was cut off with a "transfer stopped" message from the website. Is it possible that their website has been self-censored? Other articles downloaded fine. If you could summarize the article on the mailing list I'd greatly appreciate it. Thanks!

I have spent some time on your web site and based on other literature (ufo) that I have read I find your information to be lacking in substance and overly opinionated.

It seems that you rely on second and third hand sources and as a contractor with an s.c.i. clearance I regret to inform you that your claims of extraterrestrial activity at the installation better known as Area 51 are quite laughable. In my experience working for Marconi Aerospace in now declassified microwave and missile guidance and telemetric systems for use by Dept. of the Navy I suggest to you that you seek a more prosaic and earthly explanation to the activity you describe on your web site.hint hint.

Hi My name is Tim Fraser, I am a well known Professional Clairvoyant in Australia A Tidal Wave will hit the Coast of Florida. In the news very soon!

I'm Trying to tell as many people beforehand, not that anybody can do anything anyway. I hope you can archive this Email. As when it happens you will probably recall some looney sending an email saying something about a tidal wave in the USA and you won't have it on file anywhere. Sounds strange but I'm serious about it,so much so I spoke to the media about it tonight here in Australia, and it is going into print.

Thanks very much and have a great day.

THE BIBLE AND THE NEW WORLD ORDER

If one has knowledge of the Bible then the coming NWO should be of no surprise. The bible clearly says that satan is ,not the ruler of the earth, but of this system of things. It is obvious then that in order to have influence on the earth he must have his agents. And who better that the ones in control of the earth. Therefore i will encourage all, to analyse every word spoken by any political, religious or social leader. Remember the more power they have, the closer they are to satan. At present the most powerfull country on earth is the United states and who are the ones that seem so keen on the Nwo? need I say more?

JUST A THOUGHT...

Commenting on: <http://www.ufomind.com/area51/org/lockheed/>
From: Dennis W Martell <denm@clearnet.net>

[Apparently intended for Lockheed-Martin]

I've thought that since water was found on the moon that if H2O2 Was produced by the anthraquinone method (which is catalytic)the 95% H2O2 Could be vaporized and passed through an iron +3 cataylist making 750C steam to run a generator or carbonmonoxide air batteries.If the electricity produced could run ion propulsion rocket which requires 20kv it would be cleaner than the brayton cycle neuclear generator. All of the produts are totally recyclable H2O can be bubbled through with the O2 product and help to replenish the 95%H2O2.To my mind this virtually non energy requiring set of catalytic reactions produces enough heat to possibly run its products into reformation. If a system could be figured out to make H2O2 in outerspace or on the moon power could be derived and used. 750C is a little more than three times the kindling point of paper. I'm not an expert scientist but I believe its enough to run a pump to make the products recycle properly. Cotton producers use million of gallons of H2O2 per year.Hopefully enough water could be turned into H2O2 within a timeframe to keep producing energy. I do not know how long it takes to produce H2O2 in a tank or if it could be made in outerspace. I thought This to be a self evolving energy source. It looked like it to me I think it beats dropping water from one bucket into other buckets on a wheel. I'm not an English major pardon my poor sentence structure I'm trying to improve. I've sent this to nasa too.I'm not certain if I've sent this to the proper spot in lockheed but I thought areo space people should know about It

Subject: just lookin for some info

i believe area 51 is owned by the 12 majestics in which want to launch the new world order. and they are getting very impatient in doin this. i was poking around in here and found some info that was disturbing yet interested me. and would like to learn more . i believe there is alot of bad things the government has done in making viruses for warfare ...but to test it on their own people , like lab rats,is insane to me . ever since my friend turned me on to all this propaganda ive been online for hours on end poking around learning more and more about our corrupt government. some how everything is connected . like the twa flight 800 off the coast of long island ,cause for crash unknown, i believe it was shot down, and hushed up ...so many lies and so many pockets lined with money,makes me sick ...maybe im on the wrong tracki could only hope...any information you can send me would be greatly appreciated. my e-mail address is blitz38971@aol.com

THE QUICKENING

From: Ed Sackett <sackett@dbo.eng.wayne.edu>
To: webmaster@ufomind.com
Subject: And who are YOU working for?

Ya want conspiracies, do ya! Wow! Where do we begin? Draw a line between Tel Aviv, Area 51 (naw, the REAL one, not that fakeroni out West!), and McMurdo. Whattya get? Riiiiiight! A triangle! They don't want you to know that. The Trilateral Comish is holding its belly laffing! OK: Jump ahead to 1999. "Princess" "Diana" is laffing too, so hard he can't shave his chest. The little greys (I love that name! Dontcha wish GREY was all they were?) are hopping mad at all the disinfo Spiegelberg is shoveling out to the masses. (But with those little buggers, speculation is fact and a theory is proof. Man, they hold the patent on paranoia!) The MIBs are moving right along, throwing billions at LightSpeed+. They still think in terms of light "travelling." Poor kids, they can't handle the math. Hitler6 is kicking up a fuss (what a family!) and Marin County wants its 100,000 missing kids back. Hah! Those young'uns are 1,200 feet down under the Skunk Works, taking part (y' dig that phrase [nudge nudge]?) in Project Sea Change, so soreeeee! They want you to believe that. Hey, plenty more where this comes from!
