Glenn,

The reference to Greer was on the ABCNEWS.COM website on the 6th but has since been removed. After I visited Rachel, everyone at work feels the need to 'anonymously' hardcopy me on every news article that has anything to do with flying saucers. (oh joy) This original post was no exception and I found a copy waiting on my desk after coming back from lunch. I am looking at it now and the Greer/CSETI reference is included as the last paragraph. But when you go to the ABCNEWS site now, the Greer paragraph is no longer there.

re: Greer Article Doctored

It is true. ABC News did indicate Dr. Greer as a cult leader. It has since been removed. I remember hearing something about that on Art Bell the other day. I guess Art or someone else quickly contacted ABC that he is, in fact, not a cult leader. :)
