Page Frozen

The page you have just visited, as well as the section containing it, has been "frozen" in place as of Jan. 26, 2000. You can still read this page, but it will no longer be maintained.

Our [Bookstore](#) is still active and open for business and the [UFO UpDates Mailing List Archive](#) is also still active. Most of the rest of the [website](#) has been frozen and will no longer be updated or repaired.

All frozen pages will continue to be available indefinitely at their current URLs. However, we have disabled the user's ability to add and change links and modify information on people. When links go bad, we will not be repairing them, and most email requests for changes will be ignored. (We will make changes only in rare cases of copyright infringement or obviously false and damaging information.)

I am forced to freeze these pages because of the enormous cost of maintaining them. Apart from the bookstore, the site generated very little income while the subjects it covered seemed to grow exponentially. When I first started this site, intending to cover all "paranormal" topics, I never realized how many topics there were and how thin my resources would be stretched. I was embarrassed to see the number of dead links grow and to receive hundreds of change requests that I didn't have time to handle. I would rather do a few things well than a lot of things poorly, so I am turning most of the site into a "time capsule" that will not be changed.
