### hide up

It is clear that this is a cover up as if she got married to dodie alfiend then she would become a muslim and when prince william comes to the throne we would have a king of England with a muslim mum and if she had a child the King of England would have a muslim brother which would cause outrage therefore the mi5-mi6 were on the unnone moterbike and some of the witnesses said they sore a bright light which could have been a thunder flash which would blind the driver for a few seconds

do you really think that the mother of a future king of england was going to be allowed to be intimately involved with the likes of corrupt ? people like the fayed's with their underhand goings ons? and connections al fayed cant get a british citizenship let alone be stepgrandfather to the king! and as has been said she announced to the media something was to be said to shock all and everyone. two reasons why what happened had to happen.

### Di not dead? Suicide or something more?

Back in the Spring of 1997, when Diana was being hounded (as usual) by the press over her newly-established relationship with Dodi El Fayed, I vividly remember reading on CNN's website that Diana had snapped at the press at one point and said (words to the effect of): "In six months, something will happen to get you off my back forever." This begs the question: was she planning a suicide, or merely planning to fake her death, so she could live in peace? The wealthy El Fayed could easily have greased enough palms to have ensured silence. And why, the weekend following her death, was I SUDDENLY unable to find any news accounts confirming Diana's "six month" ultimatum? Anyone got any clues?
