**Location of remains of Bigfoot Body**

As Director of the above organization I thought you might like to know that the government has had the remains of a Bigfoot on ice since 1989-- it was found by a hunter following deer tracks in the high mountains of califonia. It was in perfect condition, having only been deceased for a few hrs when found. It is being kept at Elgin Airforce Base. Not at Area 51. check it out.
