Parapsychology

Psychic functioning: remote viewing, telekinesis, etc.,

This section is concerned with the collection of empirical evidence for psychic claims with the aim of proving them true or false. The focus is on topics for which a rigorous scientific methodology seems possible (for example, statistical analysis for P-K claims). See [Miscellaneous Paranormal Topics](#) for spiritual events and psychic mysteries where no physical methodology can be easily applied (ghosts, Virgin Mary sightings, etc.).
