Hi, just thought I would contact your page to bring your attention to something you have printed in hopes that you might make an addition to your information.

A lot of people did not know that APRO never shut down completely. In 1985 I was still working closely with Jim and Coral Lorenzen, at that time I headed up the Phoenix, Az. chapter. One day I recieved a call from Jim asking me to seperate the Phoenix chapter from the main body of APRO, of which I did and then we moved it back to the Chicago area in 1988, and re-established it in Illinois under a non-profit organization as the Illinois Chapter of APRO. We are still operational today.

Our chapter has grown to world wide membership once again, and we work to up hold the great name that Jim and Coral started. We are on our way to becoming one of the great forces in UFO research one again. We still publish the APRO.

I just thought you would like to know. If you would like to assist in passing on the word, I would greatly appreciate the help.

web site is www.aerialpro.qpg.com/
Email--apro@cin.net

Thank you,
Executive director
Bill Heft
