> Wolf and Lazar have no degrees, Kirkwood was never an Air Force
> Captain or jet pilot,

Mr. Friedman blows hard, but he wastes his breath against houses built of brick.

Dr. Michael Wolf-K. (of MJ-12's Scientific Studies Group) has an M.D. degree, a Ph.D. in Physics, a Sc.D. degree in computer science, and a Juris Doctor degree in Law. Several UFOlogists have visited Dr. Wolf's home and seen the degrees for themselves.

Bob Lazar's bona fides as an insider at S-4/Area 51 has been established by several ufologists, who note that among other things Bob Lazar knew in advance the test flight schedules of U.S.-manufactured antigravity craft later witnessed by these ufologists. Dr. Wolf attests that Edward Teller (also on MJ-12's Scientific Studies Group) gave Bob Lazar approval to work at S-4/Area 51.

Guy Kirkwood was an Air Force officer with pilot rating in the Korea War. This has been attested to by ufologists, including Dr. Wolf.

Both Lazar and Kirkwood have had their background records "erased" to a large degree, as payback by rogue elements in the UFO Cover-Up organization for disclosing UFO secrets. Dr. Wolf keeps a lowered profile to avoid total personal "erasure".

The absence of certain records is not evidence for the absence of education. If that is the best debunkery that Stanton Friedman can come up with, then it is time that UFOlogy realized that Mr. Friedman is not only acting like a super-deep-cover peddler of disinformation, saved for the Cover-Up's last hours, but a rather poor argument-maker.

> Richard Boylan is the big disinformant here.. ugh. Stan Friedman

As Stanton Friedman comes out of the closet as to what his mole assignment evidently is, I take nay-saying from him as high praise.

It is regretable that Mr. Friedman's previous substantial investigatory contributions to UFology are now going to be tarnished, as he plays the role of debunker of those substantial UFO witnesses informing the public about contemporary UFO realities.

At this time, when everyone is going to have to decide which side of the UFO/ET truth they are on, I appeal to Mr. Friedman to abandon the debunkery and return to investigating and sharing publicly UFO facts.

It's not too late. But it almost is.

Richard Boylan, Ph.D.
