Sacramento UFO Conference Announced

Friday, September 25th, an important UFO Conference will be held in Sacramento, California. Featured Speakers include: Dr. Steven Greer, M.D., internationally-famous Director of the Committee for the Study of Extraterrestrial Intelligence (CSETI); David Shoemaker, a New Mexico gemologist who possesses actual parts of a crashed UFO; and Dr. Richard Boylan, Ph.D., behavioral scientist, hypnotherapist and world-renown ET researcher.

Dr. Greer will speak on progress made towards authoritative public disclosure of UFO reality and extraterrestrial contact, either by world press conference or by a network televised presentation, by astronauts, high military officers, government contract scientists and others with first-hand exposure to UFOs. Dr. Greer will also talk on new developments in governmental attitude towards public disclosure, and on successful communicative interaction between humans and ETs.

David Shoemaker is a man of several talents: gemologist, birding guide and photographer. But the extraordinary thing that caused this Red Rock, New Mexico man to be invited to address the Star Knowledge Conference at Las Cruces, NM, the International UFO Congress, and now the Sacramento UFO Conference, is having in his possession material from a crashed star craft (UFO). Furthermore, this New Mexico gemologist produces pages of laboratory analysis of the exotic fragments, which indicate that some of the material is of artificial origin, and that the material is not found in the Earth's crust. Come hear David tell how he got this material, and feel them for yourself when he passes around some UFO fragments.

Dr. Richard Boylan will explore the common thread in current messages being revealed by indigenous shamans all over the Earth, by psychics who tune in to the influence of extraterrestrials on our society, and by experiencers reporting what the extraterrestrials told them. All concur that Earth is at the beginning of a major 15-year historical major transition period. During this transition Earth society will shift from a competitive, materialistic, acquisitive, polluting culture to a society which integrates extraterrestrial visitors, is cooperative, nonpolluting, sharing, based on deep metaphysical truth and reverence for all creatures, and spacefaring to meet our neighbors in the heavens.

Dr. Richard Boylan will also discuss major new disclosures being made by high-level insiders from the National Security Council and the CIA

concerning ET messages already received by our government, and interaction between governmental scientists and live extraterrestrials in underground laboratories.

Schedule (subject to change):

5:00-6:30 p.m. David Shoemaker
6:30-7:00 p.m. dinner break
7:00-8:30 p.m. Richard Boylan, Ph.D.
