> Here we go again with more false claims. I never had a TS > clearance. Last time I had a Q clearance was 1970.

Mr. Friedman,

The above assertion would be more of that "evidence by proclamation" that you claim you despise.

It certainly matters what LEVEL of Q clearance you had. The levels go up to cleared for UFO information, which somebody in government thought you were, to slip you those leaks and hints about where to find material. My source for that is a high member of the National Security Council.

> I did NOT say I know what it is that High officials don't know.

That is certainly the clear implication of your sweeping statement that CSETI could not know what high officials know. Unless you know what high officials know, AND unless you know what CSETI's Dr. Steve Greer has been briefed on, you have no way of accurately making the assertion that CSETI CANNOT know what high officials know. This is Logic 101.

> If you have any evidence, Richard, that I am a disinformation specialist, put it on the table or shut up.

And whose table would you like it delivered to? Your "source" inside government, who died a little while ago? Gee, that won't work. Deliver the evidence to your table? And how do we know that you would share it with the general public. Gee, that would be a conflict-of-interest. Guess I'll just have to count on the acumen of the many persons studying the UFO/ET phenomenon to figure out who is providing factual relevant information about extraterrestrial contact with humans currently, and who is misdirecting public attention to a 50-year-old UFO crash, when authoritative validation of that crash has already been provided by Col. Philip Corso, USA, Col. Steve Wilson, USAF, Dr. Michael Wolf, NSC, and alluded to by astronauts Cooper and Mitchell.

The POINT of extraterrestrial contact is communication and helpful cooperation. It is past time to listen to the messenger from afar, and stop fixating on what colored speckles were on his horse.

> The last and only time I worked for any agency of the US government was

when I delivered mail in Linden, NJ, in 1952 as a sophomore at Rutgers

And when you worked on the classified nuclear space engine project, are you saying that that was as a federal contract worker with high security clearance for a secret-project federal-contract firm, and since you chose your vocabulary ("employee"; "agency") with Clintonian hair-splitting, you can get away with claiming not to be an "employee" of a "federal" "agency"?

> If you have any evidence that Michael Wolf has any degrees, put it on the table or shut up.

You sure seem to be anxious that I "shut up"! Are they holding your feet to the fire? Or are you just naturally rude?

I have long since posted widely on the Internet the names of a number of UFO investigators and reporters who have visited Michael Wolf, MD, Ph.D., SCD, JD's home and seen his various diplomas for themselves. These witnesses include editor Michael Hesemann, Italian reporter Paula Harris, ufologist James Courant, and others.

When you visited Dr. Wolf's home, Mr. Friedman, how is it that you failed to see what so many other visitors did?

It's not too late to change. But it almost is.
