### Dispatches from Richard Boylan

## No "D-Day"

Response by Dr. Richard Boylan To Apparent Hoaxed-Landing-In-Planning

A report from Mr. Gersten asserts:

>Hoagland believes that there is presently an ongoing black ops project, Project Samson, involving the landing of 'spaceship' in a place north of Phoenix on December 7, 1998. He believes that the purpose of Project Samson is to create the impression of first contact and that the ETs are here to save the planet.

December 7th, Pearl Harbor Day, the day America was caught by surprise by an attack by a foreign invader with different-colored skin who didn't look like Euro-Americans? What a coincidence!

I feel that the Caution Flag should be raised high. Mr. Hoagland has been the target of disinformation scenarios in the past, and this one has the aroma of the New York City Dump.

Gersten goes on:

>Hoagland also told me that he now knows the exact time and place of the landing...that it is definitely north of Phoenix, but wont reveal either until his information is confirmed by the happening of several pre-landing date events...the first in about two weeks. He stated that the latest he will wait to announce the exact location and time of landing will be no later than November 30th.

High drama. But all it means is that those metering out to Mr. Hoagland the tidbits of disinformation they wish him to have are stringing things along, hoping to

inflame the interest of the UFO community in this latest "Hale-Bopp"-style debacle. Those behind the scenes are good at marketing strategy.

Gersten continues:

> According to Richard [Hoagland], there is a dissident faction within the secret government that does not believe in the agenda that is about to unfold, and is leaking information to Richard and to the public through John Doe aka Paul Dore and other channels.

On the contrary, it is precisely the outlaw faction/Shadow Government which is behind any STAGED Landing. Bill Clinton and other world leaders already know of the extraterrestrial Visitors' presence here and benign intentions. Indeed, the Bilderberg Council and the Council on Foreign Relations gave an extraterrestrial diplomatic group their own island base in the South Pacific in the early 1950s. Thus, there is no need for a "Landing". The ETs have been here for decades, and have been visiting and gently influencing Earth's cultural development for millenia.

The giveaway that this Staged Landing is by the outlaw faction of the UFO Cover-up is that the sources feeding Richard Hoagland disinformation say that they fear that the alleged Staged Landing ETs will be portrayed as here to save the Earth. The outlaw faction of the UFO Cover-Up works for a reactionary, ultra-wealthy global financial elite group anxious to hold onto world power. This fascist elite fear that ETs in the open could jeopardize the "elite's" hold on world power. While they may create an initial message to Hoagland that the landing will involve peaceful ETs, any such stagecraft will be manipulated by the outlaw faction in ways that favor the agenda of keeping power concentrated in the hands of the reactionary superwealthy elite. And make no mistake, the outlaw faction of the UFO Cover-Up is in possession of antigravity craft, advanced holography, and synthetic telepathy technology. They could stage a fake "landing" that might appear plausible to the naive.

It is telling that I have heard nothing from Native Elders about such an alleged ET landing, and nothing from the other sources I trust.

Thus, it is my view at this point that the UFO Community is getting set-up for another Hale-Boppian pratfall, if they fall for this one.

For a corrective view, the interested may read my book, "Project Epiphany", which deals with a similar hoax attempt and its ultimate exposure.
