Subject: There are no coincidences in the Universe- Paola

> Dear Richard

>

> I was in Downtown Rome this fine Spring morning...when in a city of 4 million people I bump into Michael Hesseman who is having dinner with Padre Balducci tonight.

[Michael Hesseman is, of course, the editor of the German publication "Magazin 2000", as well as an anthropologist and UFO investigator of note.]

[Monsignor Corrado Balducci is the Vatican official who has been permitted to go repeatedly on Italian national television and declare that ETs are real, not demonic, likely more spiritually advanced, and deserve careful scientific study. (See additional details in my article "Vatican Official..." at: www.ufonetwork.com/boylan/)]

Paola,

You are right: no coincidences. Said positively, a synchronicity which is founded in omnipresent Source Consciousness, guides events, even more obviously for those of clear and noble intention.

PH: He had spent 9 hours with Dr wolf in 1997 and >came away with a piece of " living conveyance" which he had analyzed by

>German Labs. Hesseman said his cut through ice too and became a superconductor. The results...99% silicon and 1% unknown origin..

>Silicon is not a superconductor. He does believe Wolf [Dr. Michael >Wolf, scientific consultant to the National Security Council's unacknowledged Special Studies Group subcommittee, which sets policy and controls information on UFO/ET matters, and is popularly known as "MJ-12".] is credible but a bit excentric. What do we expect >of an Einstein-like >scientist....over 200 IQ?

RB: But of course. Dr. Sarfatti, being also an eccentric genius,

can appreciate the searching truth of your observation. :-)

PH: He also saw Wolf credentials

>as Adrianno and I did and will fax me a statement supporting these
>findings. Anyone may call him. This is Germany.

RB: [Indeed. Herr Hessemann is reachable at:
100660.3672@compuserve.com]

>

>PH: Adrianno is home for Easter in Naples...when he returns we will
>publish results. Send this to kim Burrafatto and all on
list...Bot

>list too. Peace and Hope to all at Easter Paola Harris

>

RB: Paola, I will forward this to Kim Burrafatto and Dr. Sarfatti's
list. Etc.

Thanks as always for your assistance, which corroborates the
principle: "Actio in distans non repugnat." [An action whose impact is
simultaneously effected at a far distant point is not a
contradiction.] (With all due respect for Aristotle, a great
philosopher, but an imperfect physicist, who asserted the opposite.)
:-)
