>Yeah, he's the dude that was on Art Bell's show a few times and was featured on a few shows like Sightings and Hard Copy. He worked for a few local TV weather shows as a tornado chaser...got fired for trying to talk about the silver UFO he got on tape in the center of a large funnel cloud, went independent as a storm chaser...his company was Wind[something?], I think. He then opened a web site seemingly TOTALLY obsessed with bad mouthing ACC and it's staff UNTIL they shut him down with court orders, raided his home, etc etc etc...poor idiot just didn't know when to stop:(

Yes. The administration and legal department of ACC have declared war on the vicious debunkers who try to savage sincere and factual news leakage about Roswell technology back-engineered into USA tech. Dr. Wolf vouches that Jack Shulman's technology is for real.
