 Summer =9299 event
 at
 Winje=92s Farm
 Lake City California

A weekend oriented toward the important elements of New Societal living: the emerging public recognition of extraterrestrial presence among us and in our history; non-organized-churches, decentralized, nature-grounded spirituality; demonstration of simple living, living off the land, surviving interruption of ordinary services.=20
 Featuring contributions from Dr. Richard Boylan on ET-humanity orientation, spirituality, and Native American Shamanism, and much more. Dr. Richard Boylan, Ph.D., is a behavioral scientist, university instructor, clinical hypnotherapist, and researcher into extraterrestrial- human encounters. To contact Dr. Boylan, see bottom of page.

Explanations by Russ and Jody Winje about their self reliant life style, living in a simple manner that promotes peace of mind in our overly complicated world. Learn about their self reliant life style, which provides clean food and a comfortable homestead atmosphere where you can explore a wide range of spiritual living. Russ and Jody have opened their home/Farm to guest for learning in these subject areas for many years now, and look forward to sharing the experience with you.=20

In our complex changing times, a simpler spiritual approach to our daily lives, and a well thought orientation to our public recognition of extraterrestrial presence may well enhance our positive interaction with our families, our society, our planet, and the ET=92s that have been an increasing part of our humanities growth toward enlightenment. Fees are on a donation basis, and are appreciated. Pre registration is recommended as early as possible. Hypnosis sessions are available with Dr. Boylan by separate arrangement. Dr. Boylan will have his books available for purchase.
